GALAPAGOS ISLANDS - GALAPAGOS 8 DAY EASTERN ISLANDS | CORMORANT II

DAY 1: Arrival in Santa Cruz Island

Morning flight from either Quito or Guayaquil to Santa Cruz, Galapagos Island. After passing through immigration and baggage claim, you will be met by our representative and transferred to the yacht. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing. In the afternoon you will head for Bachas Beach. Located on the north shore of Santa Cruz, Las Bachas is a swimming beach. One of the few remnants of the U.S. World War II presence in the Galapagos, a floating pier, can be seen here. You may see flamingos, Sally Lightfoot crabs, hermit crabs, black necked stilts, and whimbrels. Sea turtles also nest off the beach.

DAY 2: Genovesa island and Darwin bay

This morning, we'll visit El Barranco, also known as Prince Phillip's Steps. The steep, rocky path leads to a high cliff-face, offering a marvelous view. This site is home to palo santo vegetation and a variety of bird species, including red-footed boobies, short-eared lava owls, Galapagos swallows, and Galapagos doves. In the afternoon, we'll hike a half-mile trail (0.75km) through mangroves filled with land birds to a white sand coral beach. Here, we can spot Nazca boobies, red-footed boobies, and swallow-tailed gulls. Further down the path, we'll find tidal pools where sea lions swim playfully. The trail ends with a spectacular view off a cliff.

DAY 3: South Plaza and Santa Fe

In the morning, you will head to South Plaza Island. This small island with steep cliffs was formed by rising lava and is now covered by *Opuntia cacti*. It is also home to one of the largest sea lion colonies as well as colourful yellow and red land iguanas. The most characteristic plant is *Sesuvium*. During the rainy season its colour is a greenish to yellowish tone and in the dry season (end of June through January) a bright red. In the afternoon you will arrive at Santa Fe Island. Santa Fe (Barrington) is home to the small picturesque bay and anchorage on the island's northeast coast. The bay has two visitor trails, one leading to a scenic viewpoint atop a cliff, and the other spanning from a small beach to a tall prickly pear cactus forest.

DAY 4: Witch Hill and Pitt Point

In the morning you will arrive at Witch Hill. Located on the northern coast, this eroded hill and its surroundings present one of the most picturesque beaches in the Galapagos with its white powdery sand and the abundance of animals. Wildlife includes sea turtles, rays, and various types of booby birds. The clear water provides an excellent opportunity for enjoying swimming and snorkelling. Pitt Point, situated on the north-eastern tip of the island, hosts frigatebirds, storm petrels, and all three types of booby birds: the Nazca, blue-footed and red-footed boobies. A steep trail goes up a cliff and through a ravine leading visitors to an area with an abundance of birds. This site is also great for snorkelling and scuba diving.

DAY 5: Turtle Breeding Centre, Lobos Island & Kicker Rock

The David Rodriguez Breeding Centre is a new visitor site in the northeast part of San Cristobal Island and can now be reached in roughly one hour by road from Puerto Baquerizo Moreno. In the Breeding Center, you will be able to admire the hatchling turtles from their birth until they are 120 days old when the grown turtles are taken to their natural habitat. Afterwards you may head for Lobos Island. The name of this island means "Sea Lion Island." This appropriately named island is ripe with noisy, frolicking, jolly sea lions who will welcome you to their home with open, well, fins. This island also offers great snorkelling opportunities as well as the chance to see blue-footed and Nazca boobies. In the afternoon you will visit Kicker Rock. This striking rock formation is located a couple hours off the western shore of San Cristobal. Jutting out of the water, the rocks stand vertically at hundreds of feet above the ocean divided by a small channel. Although there are no landing areas, kayaking and scuba diving allow visitors to spot a variety of marine life.

DAY 6: Suarez Point and Gardner Bay

In the morning you will visit Suarez point. This area is great for spotting blue-footed boobies, albatrosses and Nazca boobies. A beautiful site on the ocean front, the large waved albatrosses use the cliff as a launching pad. The famous attraction is the magnificent blowhole, spurting water high into the air. This site presents wonderful photograph opportunities. Gardner Bay, on the eastern side of the island, is the breeding site of nearly all of the world's 12,000 pairs of waved albatrosses. It has an ample white sandy beach with a myriad of sea lions, perfect for relaxing. Its rocky shores make this site a great place for diving and snorkelling.

DAY 7: Cormorant Point and Post Office Bay

In the morning you will visit Cormorant point. This site hosts a large flamingo lagoon where other birds such as common stilts and white-cheeked pintails can also be seen. The beaches on this island are distinct: The "Green Beach" named so due to its green colour, which comes from a high percentage of olivine crystals in the sand, and the "Four Sand Beach" composed of white coral. In the afternoon you will visit Post Office Bay. In the 18th century whalers passing through the islands placed a wooden barrel on Floreana Island for use as an unofficial mail box. The tradition continues today as visitors leave addressed postcards in the barrel and sort through left mail to deliver at home.

DAY 8: Tortoise Breeding Centre and Departure

This morning you will make your way to see the twin Craters on Santa Cruz island. Los Gemelos, or the Twin Craters, are located opposite each other on both sides of the road leading from Puerto Ayora to Baltra. The name is only figurative; not real craters, these formations were created by the collapse of surface material in underground fissures and chambers. The view is breathtaking. In the afternoon you will be transferred to Baltra airport where you will board your departure flight.

TRIP CODE

Cabin on board ship

- Cabin Accommodation on board ship
- All meals whilst on board
