

# PHOTOGRAPHY WORKSHOP

*Live for today...*

**Photographs are the means of capturing a moment forever**, which we can revisit and share with others for many years to come. Don't let the unforgettable experience end as you leave Antarctica – take home the best memories you can by capturing and developing incredible images with our Antarctica Photography Workshops. This optional activity is perfect if you are passionate about photography, or just passionate about capturing the beautiful landscape and wildlife you will encounter on your incredible Antarctic adventure.

## ADDITIONAL DETAILS

### Equipment

Computers and editing software will be supplied during your voyage. You are required to bring your own digital SLR camera or equivalent with connected cable suitable to transfer images onto a computer.

### Dedicated Photography Zodiac Excursion

To give you the best possible opportunity to capture amazing images, those who participate in our Photography Workshops will have dedicated Zodiac and photography guided landings. Your Polar Photography Guide will accompany you and give you tips and tricks on taking that perfect picture.

As a small group, you will be able to capture uninterrupted images of the surroundings and wildlife with ease. Our Photography Workshop participants have access to the Ocean Endeavour's forward facing Zodiacs, which offer stability for capturing shots as well as unobstructed views.

### Dedicated Photography Lectures

Learn more about photography and taking that perfect image in our exclusive photography lectures led by your dedicated Polar Photography Guide. Some of the things you can learn about include composition, camera settings, exposure/lighting, wildlife photography, landscape photography and shooting in polar destinations.

### Photography Editing Workshop

Didn't quite catch the perfect image? Or maybe you want to enhance the beauty you captured to try and replicate the feeling you had when you saw it in real life. On board photography editing workshops give you access to our computers with a range of software that will help enhance your images to make sure they look their absolute best, so your memories can live on in the same manner. Your Polar Photography Guide will teach you how to use the programs and guide you along the way to make your beautiful images even more stunning.

**The photography workshop must be pre-booked as limited spaces are available. Please contact your booking agent to check availability and pricing.**
