

MS EXPEDITION

With a maximum of 134 passengers, the MS Expedition provides an intimate, small ship cruising experience. Completely refurbished in 2009 and then brand new engines fitted in 2015, she boasts spacious cabins. Large common areas and observation decks provide panoramic views of the distinctive landscapes of some of the most remote regions on earth. While many expedition cruise operators will promise you space, comfort or expertise, the MS Expedition delivers it all and at a price that few can better.

Technical Information

Length: 84.73m (278.3ft)

Beam: 15.54m (51ft)

Draft: 4.71m (15 ft)
