

OCEAN ADVENTURER

The new and improved Ocean Adventurer (formerly known as the Sea Adventurer) is designed to carry 132 travellers in comfort to the most remote corners of the world. Originally built in Yugoslavia in 1976, this nimble, ice-strengthened ship has become a passenger favourite over the years and underwent refurbishments in 1999, 2002 and with the most significant being in 2017. Guests will now enjoy the addition of six new twin cabins and three new suites. All existing cabins have been furnished with brand new bathrooms and upgrades have been made to the Lounge, Dining Room, gym and suites. Major technical enhancements – include two new Rolls Royce engines, which will significantly increase fuel efficiency and minimized carbon footprint.

- TV in every cabin
- Ship-to-shore satellite communications with email, and wireless internet access

Why Choose this Ship?

"This purpose built expedition ship carries just 132 guests. There are refined public spaces and generous cabins all with private facilities. The ship is sturdy at sea and strong in the ice. This is one of our favourite ships to charter due to the all-round nature of the vessel. Excellent international crew and exceptional food put this ship in the "instead of" bracket!"

– Sarah Baxter, Relationship Manager

Cabins
