

## ANTARCTICA - HEBRIDEAN SKY

### INTRODUCTION

Flying over Cape Horn and the mythical waters of the Drake Passage, the Hebridean Sky then takes you to one of the most spectacular places on earth, the coldest, highest, windiest, driest, and remotest continent - Antarctica.

### ITINERARY

#### DAY 1: Start of the Air-Cruise

Arrive in Punta Arenas, Chile, where you are welcomed by our team and transferred to your hotel. In the afternoon, there is a briefing that provides important information about your voyage and reviews the essential guidelines for Antarctic visitors. Later, gather for a welcome dinner and meet your fellow adventurers while enjoying a typical regional menu.

#### DAY 2: Scheduled flight to Antarctica

Your Antarctic adventure begins with a two-hour flight from Punta Arenas to King George Island, in the South Shetland Islands. As you exit the airplane, the clear Antarctic air fills your lungs for the first time. Explore the area surrounding Chile's Frei Station and Russia's Bellingshausen station, before boarding a Zodiac to embark your expedition vessel.

### DAY 3: Exploring Antarctica - Day 3 to 6

Cruise between the South Shetland Islands and the western coast of the Antarctic Peninsula, sailing along ice-filled fjords and among spectacular icebergs, while enjoying the company of sea birds, penguins, seals and whales. Each day, disembark by Zodiac and explore the landscape together with expert polar guides. On board the ship, attend an engaging program of lectures and presentations, and enjoy spectacular vistas from the glass-enclosed lounge while sharing your daily adventures with fellow guests. No journey is the same as flexibility is the key to success in Antarctica. The Expedition Team sets the voyage route to take advantage of the ever-changing opportunities provided by nature, crafting a unique and extraordinary experience each time. While the exact itinerary changes with each expedition, you will explore several spots that offer the best possible overview of the varied Antarctic environment. Your voyage may include visits to sites such as Paulet Island, Hope Bay, Port Lockroy, Petermann Island, Paradise Bay, Deception Island, the Lemaire Channel, or many other magnificent places.

### DAY 7: Scheduled return flight from Antarctica

Return to King George Island and bid farewell to Antarctica before boarding the flight back to Punta Arenas. On arrival, transfer to your hotel for the night. (Note: Meals in Punta Arenas are at your leisure and not included in the program.)

### DAY 8: End of the Air-Cruise

After breakfast, transfer to the Punta Arenas airport for your onward flight.

### SUSTAINABILITY

GUIDANCE FOR VISITORS TO THE ANTARCTIC  
RECOMMENDATION XVIII-1, ADOPTED AT THE ANTARCTIC TREATY MEETING,  
KYOTO, 1994

Activities in the Antarctic are governed by the Antarctic Treaty of 1959 and associated agreements, referred to collectively as the Antarctic Treaty System. The Treaty established Antarctica as a zone of peace and science.

In 1991, the Antarctic Treaty Consultative Parties adopted the Protocol on

Environmental Protection to the Antarctic Treaty, which designates the Antarctic as a natural reserve. The Protocol sets out environmental principles, procedures and obligations for the comprehensive protection of the Antarctic environment, and its dependent and associated ecosystems. The Consultative Parties have agreed that as far as possible and in accordance with their legal system, the provisions of the Protocol should be applied as appropriate. The Environmental Protocol was ratified in January 1998.

The Environmental Protocol applies to tourism and non-governmental activities, as well as governmental activities in the Antarctic Treaty Area. It is intended to ensure that these activities, do not have adverse impacts on the Antarctic environment, or on its scientific and aesthetic values.

This Guidance for Visitors to the Antarctic is intended to ensure that all visitors are aware of, and are therefore able to comply with, the Treaty and the Protocol. Visitors are, of course, bound by national laws and regulations applicable to activities in the Antarctic.

### PROTECT ANTARCTIC WILDLIFE

Taking or harmful interference with Antarctic wildlife is prohibited except in accordance with a permit issued by a national authority.

Do not use aircraft, vessels, small boats, or other means of transport in ways that disturb wildlife, either at sea or on land.

Do not feed, touch, or handle birds or seals, or approach or photograph them in ways that cause them to alter their behavior. Special care is needed when animals are breeding or molting.

Do not damage plants, for example by walking, driving, or landing on extensive moss beds or lichen-covered scree slopes.

Do not use guns or explosives. Keep noise to the minimum to avoid frightening wildlife.

Do not bring non-native plants or animals into the Antarctic, such as live poultry, pet dogs and cats, or house plants.

### RESPECT PROTECTED AREAS

A variety of areas in the Antarctic have been afforded special protection because of their particular ecological, scientific, historic, or other values. Entry into certain areas may be prohibited except in accordance with a permit issued by an appropriate national authority.

Activities in and near designated Historic Sites and Monuments and certain other areas may be subject to special restrictions.

Know the locations of areas that have been afforded special protection and any restrictions regarding entry and activities that can be carried out in and near them.

Observe applicable restrictions.

Do not damage, remove, or destroy Historic Sites or Monuments or any artifacts associated with them.

### RESPECT SCIENTIFIC RESEARCH

Do not interfere with scientific research, facilities or equipment.

Obtain permission before visiting Antarctic science and support facilities; reconfirm arrangements 24-72 hours before arrival; and comply with the rules regarding such visits.

Do not interfere with, or remove, scientific equipment or marker posts, and do not disturb experimental study sites, field camps, or supplies.

### BE SAFE

Be prepared for severe and changeable weather and ensure that your equipment and clothing meet Antarctic standards. Remember that the Antarctic environment is

inhospitable, unpredictable, and potentially dangerous.

Know your capabilities and the dangers posed by the Antarctic environment, and act accordingly. Plan activities with safety in mind at all times.

Keep a safe distance from all wildlife, both on land and at sea.

Take note of, and act on, the advice and instructions from your leaders; do not stray from your group.

Do not walk onto glaciers or large snow fields without the proper equipment and experience; there is a real danger of falling into hidden crevasses.

Do not expect a rescue service. Self-sufficiency is increased and risks reduced by sound planning, quality equipment, and trained personnel.

Do not enter emergency refuges (except in emergencies). If you use equipment or food from a refuge, inform the nearest research station or national authority once the emergency is over.

Respect any smoking restrictions, particularly around buildings, and take great care to safeguard against the danger of fire. This is a real hazard in the dry environment of Antarctica.

### KEEP ANTARCTICA PRISTINE

Antarctica remains relatively pristine, the largest wilderness area on Earth. It has not yet been subjected to large-scale human perturbations. Please keep it that way.

Do not dispose of litter or garbage on land. Open burning is prohibited.

Do not disturb or pollute lakes or streams. Any materials discarded at sea must be disposed of properly.

Do not paint or engrave names or graffiti on rocks or buildings.

Do not collect or take away biological or geological specimens or man-made artifacts as a souvenir, including rocks, bones, eggs, fossils, and parts or contents of buildings.

Do not deface or vandalize buildings or emergency refuges, whether occupied, abandoned, or unoccupied.
