

## BRAZIL - FERNANDO DE NORONHA BEACH ESCAPE

### INTRODUCTION

An archipelago of 21 islands, Fernando de Noronha is home to some of South America's most spectacular beaches and like a tropical version of the Galapagos Islands on the Atlantic coast. Located in the very north-east of Brazil and 545km off the coast from Recife, the islands are by far South America's most picturesque islands.

An amazing collection of beaches on the inner and outer-sea, with tropical currents, provide safe swimming options all year. Whilst the wildlife on the islands is not overly abundant, it is the marine life, the laidback locals and the variety of spectacular beaches, backed by diverse volcanic landscapes, that make these islands incredibly beautiful.

## SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.
- 3) Chimu's "Pass it on" programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with

Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.

4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.

5) Chimu Adventures' offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure's internal processes are also structures to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
