DAY 4: Santa Cruz Island - Baltra Airport

After breakfast, enjoy the visit to Black Turtle Cove, which is located on the north shore of Santa Cruz. It is a living illustration of how mangroves alter the marine environment to create a rich and unique habitat. Three mangrove species crowd the area from the shore out into the lagoon, which reaches almost a mile inland. As you drift through quiet waters in the zodiac, you are likely to see spotted eagle rays and diamond shaped mustard rays, which swim in a diamond formation. White-tipped reef sharks slip beneath the boat and Pacific green sea turtles come to the surface for air and to mate. Waterfowl, including pelicans, herons and egret, all feed in the cove. This is a peaceful place that will make you feel calm. After this last visit, transfer to Baltra airport for your return flight to mainland Ecuador.
