

INTRODUCTION

Follow in the footsteps of Charles Darwin as you sail around the southern islands of the remote Galapagos archipelago, one of nature's most incredible wonders. Encounter the sea lions of Santa Fe, also home to frigatebirds, lava lizards and the Galapagos mockingbird. Walk through forests of prickly pear, snorkel in jade-green waters alongside turtles, reef sharks and tropical fish and meet the giant tortoises of San Cristobal. The archipelago abounds with incredible wildlife and spectacular landscapes.

DAY 2: Baltra - Charles Darwin Research Station

This morning you will be transferred to the airport for your flight to the Galapagos Islands. Please note the pick-up time will usually be as early as 4:30 am (a boxed breakfast will be provided), as the airport is a one-hour drive away and you must allow for delays and check-in times. (Your tour leader will confirm this time with you at the Welcome Meeting on Day 1). A US\$20 per person transit card is payable on departure at Quito Airport and a US\$100 per person national park entry fee is payable on arrival on the islands. Please have cash on hand for these transactions as credit cards are not accepted. The flight to the Galapagos will make one stop in Guayaquil to pick up other passengers. (Total flight time is about 3.5 hours). On arrival in the Galapagos, you will be met in the arrival hall of the airport (look out for 'Queen Beatriz' signs) by a transfer guide and transferred to your motor yacht, 'MY Grand Queen Beatriz', anchored on the other side of Santa Cruz Island. Our transfer guide will take you on an airport public bus for a short distance (5 minute drive) to where you board a public ferry across the Itabaca Channel. The ferry crossing takes only 7 minutes. (Please note that all public transportation costs are included). Once you reach Santa Cruz Island, a private bus you board a private bus for a 45-minute drive to Puerto Ayora, the main port of the island. Here, there will be two dinghies to transport you and your fellow travellers to the 'MY Grand Queen Beatriz'. Once on board, cabins will be assigned and there will be a welcome briefing and safety drill. You will then get to meet our crew members and get to know your naturalist guide while enjoying a delicious lunch. Your first stop in the afternoon is Santa Cruz, the second largest island in the Galapagos. The small town of Puerto Ayora is the economic centre of the archipelago, and home to the Charles Darwin Research Station. As well as undertaking vital conservation work, the station also makes for interesting exploration and offers the best opportunities for close encounters with giant tortoises. You will also observe baby tortoises and land iguanas.

DAY 3: Isla Santa Fe - Plaza Sur

Santa Fe Island is home to many sea lions and these ones are very eager for swimming partners! It's a lovely place to take a dip, offers a dense concentration of wildlife, and is a fantastic place to see many of the stars of the Galapagos in one relatively small area. Expect to see Galapagos hawks, land iguanas, a variety of finches, Galapagos mockingbirds, sea lions, marine turtles, frigatebirds, Galapagos doves and lava lizards. It's a naturally beautiful island as well with one of the most attractive coves in the archipelago and the jade-green waters are ideal for snorkelling. A trail follows the coast into the opuntia forest, where you see Santa Fe's trees - the largest in the Galapagos. The island is also home to a unique sub-species of land iguanas. Hiking towards the cliffs on Santa Fe will lead you to a forest of prickly pear cactus. A member of the cactus family, their name comes from the pear-shaped fruit the plant produces. Santa Fe is home to endemic land iguanas. Once back at the beach you will have free time to snorkel back in the lagoon. Playful sea lions pups and florescent fish make for fascinating company. A small island, Plaza Sur is nonetheless a place of great beauty, where you will get close to sea lions and on to trails past one of the Galapagos' largest land iguana populations, resting amid cacti and volcanic landscapes coloured bright red and green by sesuvium. The island's rugged southern cliffs are an excellent place to spot tropicbirds and swallow-tailed gulls, as well as the 'Gentlemen's Club', a gathering of male sea lions either too young or too old to be beachmasters!

DAY 4: Isla Espanola - Bahia Gardner - Punta Suarez

After an overnight night sail you will wake up on the island of Española - the southernmost island of the Galapagos and one of the most spectacular. Because of its remote location, this island has a large population of endemic fauna. It is the breeding site for nearly all of the world's 12,000 pairs of waved albatrosses and also home to colonies of blue-footed and masked boobies. Trails from the golden beaches, where sea lions bathe and marine iguanas make their way towards the water, will lead you right through the middle of booby colonies, and Galapagos doves and mockingbirds are also often seen. You will also visit the beautiful white sandy beaches at Bahia Gardner, which are great places for swimming and relaxing. The rocks off the coast provide excellent snorkelling opportunities, with reef sharks, turtles and many species of tropical fish, including surgeon and angelfish, often seen. The small white-tipped reef sharks are also often spotted resting under the rocks. You will also pay a visit to Punta Suarez, one of the most attractive locations in the Galapagos and home to large and varied wildlife population - a walk along its trails will take you to a cliff top viewpoint, where you'll gain a magical panorama. Boobies line the rocky shoreline beneath you, while frigate birds may be seen overhead; nearby enormous male sea lions can be seen lounging and albatross use the cliffs as their 'runway', helping become airborne by the southeast winds that blow across this part of the island. If you're lucky you'll see the elaborate courtship rituals performed by albatrosses before the female chooses her lifelong mate! Stop at Bahia Gardner (Gardner Bay), which is considered by many as one of the most beautiful beaches in the Galapagos Islands and full of sea lions and hooded mockingbirds. Enjoy the beach and do some snorkelling which could be great for playing with sea lion pups and lots of fish. The rocks off the coast provide excellent snorkelling opportunities, with reef sharks, turtles and many species of tropical fish, including surgeon and angelfish, often seen. The small white-tipped reef sharks are also often spotted resting under the rocks.

DAY 5: Isla Cristobal - Leon Dormido - Isla Lobos

This morning you will visit Punta Pitt on the eastern end of San Cristobál Island. Walk to the top of the volcanic hill for expansive views of the sparsely vegetated area. A variety of seabirds nest here, including blue-footed boobies and frigates. On a 'panga' ride you can observe the three varieties of boobies nesting in the Galapagos and enjoy a snorkel from the beach. Close by you will pass through Leon Dormido (Kicker Rock), the magnificent basalt remains of a crater in the middle of the sea, the shape resembles a sleeping lion. The rock rises 150 metres above the surface and is divided into two parts by a narrow channel. You cruise through the channel with nesting seabirds on either side of the boat, tropic birds overhead, marine iguanas in the water and many sea lions present including many resting on the rocks. Snorkelling gives us the opportunity to see Galapagos sharks, and possibly a hammerhead shark among sea turtles and an incredible biodiversity of invertebrates on the rock wall. You will also visit Isla Lobos, a tiny island almost touching San Cristobál Island. This is the perfect time to witness the always friendly sea lions as they play in the calm shallow waters here. Blue-footed boobies, frigate birds and marine iguanas are also easily seen.

DAY 6: San Cristobal Interpretation Center, fly to Quito

As flights to the mainland from Galapagos depart mid morning, it is an early start for our last morning on the islands. Depending on the time of our flight, our time spent on this final excursion could be limited. Visit San Cristobal Interpretation Center in the morning. This centre brings the history and geography of the archipelago to life, from its volcanic origins to the present day. The human history exhibit offers an insight into the discovery and colonisation of the Galapagos, and the reality of the problems the islands face today is also explored. You will then head to the airport for our flight back to Quito. As you will be leaving the boat this morning, please remember that if you have enjoyed the services provided by your guide and crew, a tip would be very much appreciated by them. As a guideline we recommend each passenger consider US\$15 per day for the crew and US\$10 per day for your guide. You can leave tips in envelopes that are placed in your cabin on the last day of your journey. Upon arrival in Quito Airport you will be transferred back to your hotel for an overnight stay.

DAY 7: Quito

Your Galapagos adventure will come to an end today after breakfast. There are no activities planned for the final day so you are able to depart the accommodation at any time. There are many fascinating things to do in and around Quito, so please speak to our customer service representative about any optional activities that might be of interest. They can also assist you in booking a departure transfer to the airport.

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.
- 3) Chimu's "Pass it on" programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.
- 4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.
- 5) Chimu Adventures' offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure's internal

processes are also structures to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
