

THE ARCTIC - ARCTIC SAGA

INTRODUCTION

BOOK & SAVE : Up to 40%* on select Premium Cabins and departures.

This 14-day itinerary sees you exploring some of the remotest islands on the planet as you discover the rugged beauty, history and wildlife of Fair Isle, the Faroe Islands and Jan Mayen, en route to Spitsbergen. The coastal cliffs of Fair Isle teem with birds including the Atlantic puffin. The Faroe Islands are beautiful and unspoiled with a rich Viking history. Jan Mayen is the world's most northerly volcanic island, a nature reserve north of the Arctic Circle that is rarely visited. Spitsbergen beckons with its immense glaciers, towering fjords, polar deserts and soaring sea stacks. This is the "wildlife capital of the Arctic", where Svalbard reindeer roam the land, and dolphins, seals and whales patrol the waters.

ITINERARY

DAY 1: Embark in Aberdeen, United Kingdom

Arrive any time on Day 1 and make your way to your included hotel. The gateway for your arctic adventure, the Scottish city of Aberdeen has many monikers, but its most famous is Granite City, as it was once the granite capital of the world. Wandering the streets, you'll soon see why, as the Victorian buildings sparkle in the sun. A bustling cultural hub, Aberdeen also offers a range of museums, galleries, theatres, shops, cafés and restaurants to explore.

DAY 2: Embarkation Day

Today you will have some free time before being transferred to the port to board your ship. As you set sail this afternoon, you'll want to be out on deck, camera in hand—the area's coastal waters offer excellent possibilities for spotting bottlenose and white-beaked dolphins, harbor porpoises and minke whales.

DAY 3: Exploring Fair Isle

The U.K.'s most remote inhabited island, the extraordinary Fair Isle is located halfway between the Shetland and Orkney Islands. Boasting a rugged beauty, Fair Isle's landscape is diverse, with fields and moors dominated by seaside cliffs and an astounding amount of sea stacks, natural arches and caves. Despite its small size, the island offers activities for history, nature and photography buffs alike. Visit the museum to immerse yourself in local artefacts, photos, knitwear and other historic memorabilia. Don't forget to snap a shot of the circa 1935 classic red phone booth by the post office! In terms of wildlife, orcas are native to the waters around Fair Isle, and they sometimes come close in pursuit of seals. But the island is best known for its coastal cliffs teeming with seabirds in spring and summer. The star attraction is the Atlantic puffin, a clown-like bird that clings to the steep slopes. Photographers will surely want to capture pictures of their bemused expressions, and Fair Isle's easily accessible grassy banks make it one of the best places in the Shetlands to observe these colourful creatures. Northern fulmars, kittiwakes, storm petrels, razorbills and guillemots are also likely to be spotted, soaring over the open waters. Visitors to this community of crofters, artisans and artists may be able to pick up a traditional Fair Isle sweater to keep you warm during the rest of your arctic voyage. Be sure to pick one up, along with a matching hat, scarf and mittens, at the town hall.

DAY 4: Exploring the Faroe Islands - Day 4 & 5

Known for its beautiful, unspoiled landscape, with verdant pastures giving way to rugged, steep cliffs, the Faroe Islands have a storied past, though the details of the archipelago's early history are a bit hazy. The first settlers may have been seventh-century Irish monks seeking solitude on these islands far removed from any continent. Their isolation ended in 800 AD, with the arrival of Norse farmers, and Norwegian colonization continued throughout the Viking Age. Today, many of the inhabitants of the Faroe Islands, now a self-governing country within the Kingdom of Denmark, are descendants of Norwegian Vikings. We will have two days to explore this unspoiled and seldom-visited archipelago made up of 18 rugged islands located about halfway between Scotland and Iceland. The mighty North Atlantic is omnipresent wherever we go with no place on the Faroe Islands farther than 3 miles (5 km) from its shores. The sea has always dominated life on the Faroes – throughout history as much as today: rich fisheries, magnificent ocean views and thriving sea bird colonies make up this rare Nordic jewel – often referred to as Europe's best kept secret. We will spend a day exploring the outer islands of the archipelago which are separated by narrow sounds and fjords and delight in their surreal landscapes, dramatic cliffs and rock formations, green valleys engulfed by steep dramatic mountains, protecting small picturesque villages with colourful turf-topped houses. Wind, weather and sea conditions will influence and shape our activity options, but we will of course always keep our eyes out for marine and bird life especially the iconic Atlantic puffin. Our second day in the Faroes will be dedicated to the capital city of Tórshavn, where the Vikings established their government in 825 AD. One of the world's smallest capitals, the picturesque Tórshavn has a relaxed vibe and a number of historical and cultural sites. Meander the maze of narrow laneways of the Old Town, admiring the quaint wooden houses with traditional sod roofs and white paned windows. If you're looking for more action, a hike up to the historic fort, built in 1580 to guard against pirate raids, offers stunning views of the port below. Or perhaps you prefer to wander the charming harbor, filled with cafés, pubs and old warehouses, and simply gaze out at the sea while sipping a latte.

DAY 6: At Sea - Day 6 & 7

Say goodbye to the Faroes as we cruise toward the world's most northerly volcanic island, Jan Mayen. There are several activities to keep you engaged while at sea. Learn to identify seabirds gliding alongside your ship, attend dynamic presentations by your Expedition Team, relax in our polar library or simply spend some time on deck, admiring the sea. With your binoculars and camera at the ready, keep your eyes peeled for the blow of a humpback, blue or fin whale. Encounters with minke whales or orcas are also possible, since their curiosity can bring them near the ship. If you're lucky, you may even see harp seals.

DAY 8: Exploring Jan Mayen - Day 8 & 9

North of the Arctic Circle, about 280 miles (450 km) east of Greenland and 340 miles (550 km) north of Iceland, is the mysterious Jan Mayen, deep in the North Atlantic Ocean. Often shrouded in thick fog, the small mountainous island was declared a nature reserve in 2010 and is rarely visited, save for the 18 rotating personnel of the Norwegian military and Norwegian Meteorological Institute, who are the only inhabitants. Landing here will be dictated by the weather and sea. If conditions allow, as we approach, keep watch on deck as the spoon-shaped island's highest summit emerges. At 7,470 feet (2,277 meters) high, the breathtaking Beerenberg volcano features a symmetrical cone shape and impressive glaciers that spill into the sea. During the summer months, the island's lower landscape is covered with grass, moss and a smattering of hardy flowers that add a cheery pop of colour to the otherwise barren black lava terrain. One site we hope to visit is Olonkinbyen and the surrounding area. Named after Russian-Norwegian polar explorer Gennady Olonkin, it's the island's only settlement and the location of the meteorological station, where you may have the chance to learn about polar research while seeing how weather is monitored at the top of the world. Another option might be the black sand beach at Kvalrossbukta, where the remnants of a 17th-century Dutch whaling station and a large fulmar colony can be found. In 1632, two Basque ships landed at the small bay and plundered the station. A Dutch party was sent here the following year to protect the land stations during winter, but all seven men perished from scurvy. Whaling in the area came to an end about 20 years later. If we're fortunate, we may view the volcano and the stratified cliffs of the spectacular north coast as we Zodiac cruise around the island, searching for wildlife. Designated an Important Bird Area by Bird Life International for the large numbers of breeding seabirds, Jan Mayen supports colonies of northern fulmars, little auks, glaucous gulls, kittiwakes, and black and Brünnich's guillemots (thick-billed murre). And if we are fortunate, you might see "sea parrots," the Atlantic puffin again. The waters here are rich feeding grounds for marine life, so keep a lookout for minke, fin, blue or humpback whales.

DAY 10: At Sea

As we sail farther north, spend some time with your shipmates in the lounge, swapping stories and photos, or pause for a moment on the bridge, joining in as your Expedition Team looks out for whales, seals and a variety of seabirds.

DAY 11: Exploring Spitsbergen, Svalbard - Day 11 to 13

Rugged, wild, unspoiled and situated entirely within the Arctic Circle, the largest island of the Svalbard archipelago is unforgettable. From immense glaciers to polar deserts, the landscape here is as varied as the wildlife. As we explore the fjords of the southwestern corner of this magical island, it won't take long for you to see firsthand why Spitsbergen is the "wildlife capital of the Arctic." Some areas we hope to visit include Hornsund and Bellsund fjords and the Lilliehöök Glacier. The possible landing sites at Hornsund, the island's most southerly fjord, have rich histories. En route to Isbjornhamna, a bay at the southern end, where we hope to explore the former science station, you may have the opportunity to discover old whale bones. You may spot Svalbard reindeer and colonies of delightful little auks. A 12-mile (20 km) long sound, Bellsund lured miners a century ago to its natural resources. Today, visitors come to Bourbanhamna and Calypsobyen to see historic mining and trapper sites and marvel at the magnificent vistas. It may also be possible to hike along the colourful tundra, dotted with flowers bursting for a taste of sunshine. Viewing reindeer here is likely, as they frequent the area.

DAY 14: Disembark in Longyearbyen

The time has come to say farewell to your newfound friends and Expedition Team. After disembarking, spend the day exploring the frontier-style settlement of Longyearbyen or catch your homeward flights.

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.

3) Chimu's "Pass it on" programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.

4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.

5) Chimu Adventures' offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure's internal processes are also structured to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
