Friday to Monday
<b>DURATION</b>
4 Days
<b>LOCATIONS</b>
Galapagos Islands, Ecuador

## ECUADOR - FINCH BAY HOTEL ISLAND ESCAPE

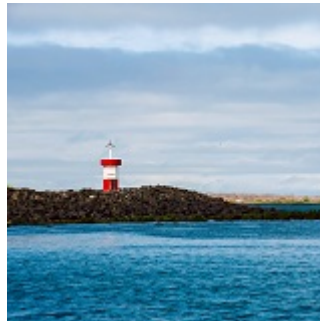

### DAY 2: Yacht Excursions

Finch Bay has created a program so you can enjoy as much of the local area as you want. You have the opportunity to board the hotel's yacht for Bartolomé or North Seymour Island. The volcanic Bartolomé hosts the famous Pinnacle Rock, home to Galapagos penguins, the only species of penguin found north of the equator. While on North Seymour you will find the largest frigate bird nesting site and a green sea turtle nesting area on the white sands of Bachas Beach, great for snorkelling. This island is teeming with life! You might have to give way to a passing sea lion or marine iguana; blue-footed booby nests sit beside the trail where mating pairs perform their courtship dance.

### DAY 3: Land Activities

Finch Bay has created a program so you can enjoy as much of the local area as you want. On Santa Cruz Island, you can visit the Highlands for spectacular views and study the endemic flora as well as an abundance of fauna; see giant tortoises in their natural habitat and at the Manzanillo Tortoise Reserve; and visit Tortuga Bay which is perhaps Ecuador's most beautiful beach or visit Cerro Mesa and Garrapatero Cove. After taking a vehicle for 5 kms you will get to Cerro Mesa, a private preserve is a great combination of native and endemic forest, a splendid birding area, a natural path of migrating giant tortoises and impressive volcanic formations. Later we will walk towards Garrapatero Cove and beach, regarded as having the finest sand in all Galápagos! We enjoy a soothing dip in the waters; take a small trip on a tandem, sit-on-top kayak; lie on the beach; or walk a short distance to a brackish lagoon, home of stilts, plovers, pintails and flamingoes. Our staff from the hotel meet guests here. A previously-ordered box lunch is served under the shade of the halophyte trees. After

### DAY 4: Los Gemelos & Departure

After breakfast, depart the Finch Bay Hotel and visit Los Gemelos, the Twin Pit Craters, great geological depressions of volcanic material formed by a long process of slow sinking of the ground. Then, transfer overland to the airport for the flight back to mainland Ecuador.

### SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

The Finch Bay Hotel has an intrinsic sustainability philosophy. Staff are intrinsically trained in sustainability issues, nearly 70% taking alternative transport, such as bikes to work. The beaches are cleaned each day, with guests asked to volunteer and share stories with local residents and workers. While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore remain culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
