DAY 1: Arrival in Panama City

Panama City, Panama’s capital, is possibly the most cosmopolitan capital in Central America. It is a modern city framed by the Pacific Ocean and the man-made Panama Canal. The original city of Panama (Panama Viejo) was destroyed by fire in 1671. The city was rebuilt on a peninsula, 8kms from the original settlement. It is known as Casco Viejo (Old Quarter) and is the historic centre of Panama, with cobble-stoned streets and colonial buildings. The archaeological site of Panama Viejo and the historic district of Panama are both UNESCO World Heritage Sites. The banking district is a lively and vibrant sector of the city.

DAY 2: Full Day Panama City & Miraflores Locks

This morning we make our way to the Miraflores Locks. This is the canal’s busiest time when vessels are lifted or lowered 16 metres in the two distinct steps. We also visit the Museum and Visitor Centre to learn more about how this masterpiece of engineering was constructed, its history and its impact on global trade. From here we continue to the Amador Causeway and enjoy the incredible views of the canal and the city skyline before visiting a local restaurant on the causeway for lunch. After lunch we head to Casco Viejo, Panama City colonial quarter. Here we enjoy the colonial architecture, with its narrow roads, quaint houses and impressive churches. Finally we visit Panama Viejo, the old capital that was looted and destroyed by the notorious English buccaneer Henry Morgan in 1671 and subsequently abandoned. Today only ruins remain.

DAY 3: Depart Panama City

You will be collected from your hotel at the appropriate time and transferred to the airport for your onward flight.

The city was founded by the Spanish in the 16th century and it is now a diverse and fascinating mix of castles, fortresses and Spanish colonial buildings intermingled with modern high rises. The Old City (Habana Vieja), with its narrow streets and overhanging balconies is a UNESCO World Heritage Site and the centre of the original city. Soak up the atmosphere as you sip on a Mojito, a refreshing blend of rum, lime, sugar, mint leaves, soda water and ice or maybe sample a Cuba Libre, made with rum, coke and lime.

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you’re visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.
- 3) Chimu’s “Pass it on” programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.
- 4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.
- 5) Chimu Adventures’ offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure’s internal processes are also structures to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
