The glacier is more than two miles wide and averages 74m in height above the surface of the water of Lake Argentino. From the water level you get a feel for the size of this remarkable glacier - a true highlight of Patagonia. Reaching the Icebergs Channel, the boat will stop at a safe distance from the glacier, continuing to sail down all its front, allowing a spectacular view of the high wall of ice. On completion of the tour you will be taken to your hotel.

## SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

During your tour you will stay at Hotel Las Torres. Protecting the wilderness of the Tierra del Fuego National Park is at the heart of Las Torres philosophy. On top of critical conservation activities such as trail maintenance and waste management, Hotel Las Torres also engages in scientific investigation and provides essential educational services in the region. They also work regularly with Chilean schools to improve environmental performance through expeditionary educational programs. While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore remain culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff
