CHILE - 4 DAY TIERRA CHILOE ADVENTURE

DAY 2: Exploring Chiloe Island - Days 2 & 3

For the following days, you may choose from a variety of full day & half day excursions that highlight the wonders of Chiloe. The following are just a sample of the activities that may be undertaken. Undertake a half day excursion to the beauty of Castro. The beating heart of Chiloé lies in the traditional stilt houses, grand churches and authentic craft markets of Castro. This city, a 16th century former stronghold of Chilean governance, was used as an entry point to capture the island as an extension of the mainland. The history and cultural influences surrounding Castro make for an adventure of discovery. It begins with a visit to the colourful Mercado Yumbel. This vibrant market is awash with local produce, freshly caught fish and rustically woven wares, a place for islanders as well as visitors. From Yumbel, head to the iconic stilt houses in an area protected by the curve of the coastline, a great photo opportunity. The streets from the bay lead to the central church of San Francisco, one of the UNESCO World Heritage sites. The visit ends with time in the shipyards and carpentry school, an important part of the city's economy and cultural heritage. In the afternoon undertake a kayak experience along the quaint waters. You will head in the direction of Pullao Marsh, one of the regions most important marshes. Here you will watch migratory birds such as the long-billed curlew, cormorants and flamingos. You may even be lucky enough to row alongside dolphins. The tour will finish with one of the island's longest standing traditions; clam harvesting, a very important activity for Chiloe. From there, you will head back to the hotel for an evening dinner and drinks.

DAY 4: Depart Tierra Chiloe

This morning you will be collected from the hotel and transferred to the airport for your onward flight.

SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

CHILE - 4 DAY TIERRA CHILOE ADVENTURE

Tierra Chiloe carries a unique sustainability philosophy grounded in areas such as material use, agriculture and cultural sustainability. The hotel geometric design itself is not only aesthetic, but optimises natural sources of light for heat and ventilation. Tierra Chiloe has also been declared by FAO (Food and Agriculture Organisation) as a 'Globally Important Agricultural Heritage System', with over 20 hectares producing 18 different types of food and vegetables on an organic farm. While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
