

FALKLAND ISLANDS - SYLVIA EARLE | SUBANTARCTIC SAFARI

INTRODUCTION

Explore the hidden and often missed Sub-Antarctic islands. On board the Sylvia Earle, one of the worlds latest polar expedition vessels you will find the highest degree of comfort. From Ushuaia you will embark on an incredible journey to to the Falkland Islands, built up of 700 scattered islands, a beautifully barren paradise home to a wide variety of birdlife including the largest black-browed albatross colony in the world. South Georgia is an island of incredible riches, jagged peaks, craggy coves and a rocky coastline dominate the island and where some of the largest king Penguin colonies on Earth reside.

ITINERARY

DAY 1: Arrival in Ushuaia

Arrive in Ushuaia, where you will be met by a representative of Aurora Expeditions and transferred to your downtown hotel (preferred flights only). Upon arrival at your included hotel, kindly remind hotel check-in staff to provide you with Aurora Expeditions cabin tags. Please clearly label the tags with your name and ship cabin number.

DAY 2: Embarkation in Ushuaia

This morning, please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Please take your cabin luggage down to hotel reception by 8.00 AM. Your luggage will be collected from your hotel and transferred directly to port for clearance and delivered to your cabin ahead of your arrival on board. Keep any valuables or personal items with you throughout the day. Once you have checked out of your hotel by 11.00 AM, you have free time before meeting back in the hotel lobby at 2.00 PM to commence a tour of Ushuaia. On this half day introductory tour, you will visit “La Mision” neighbourhood, the old Government House, and the upper area of the city, which offers beautiful panoramic views of Ushuaia and the Beagle Channel. During the excursion you will see the antique houses that belonged to the first families settled in Ushuaia. The excursion ends with a visit to the Old Prison Museum before transferring to the pier for embarkation at approximately 4.00 PM. After embarkation, you’ll have time to settle into your cabin before our important mandatory briefings. As the ship pulls away from port, we’ll gather on the deck to commence our adventure with spectacular views over Ushuaia and Tierra del Fuego. This evening, get to know your fellow expeditioners and friendly expedition team and crew at a welcome dinner to celebrate the start of a thrilling adventure to Antarctica.

DAY 3: At Sea

As we commence our trip across the South Atlantic Ocean, we make the most of our time getting comfortable with the motions of the sea. Our expedition team prepare you for our first landing with important wildlife guidelines and biosecurity procedures, and start our lecture program to help you learn more about Antarctica’s history, wildlife and environment. Our wildlife experiences begin as we enjoy watching and photographing the many seabirds, including majestic albatrosses and giant petrels following in our wake. They rise and fall skilfully, using air currents created by the ship to gain momentum.

FALKLAND ISLANDS - SYLVIA EARLE | SUBANTARCTIC SAFARI

DAY 4: Falklands - Day 4 to 6

The Falklands Malvinas comprises two large islands (East and West Falkland), with over 700 islands scattered off the coast. All but seven of these are uninhabited, with windswept coastlines, white sand beaches and crystal clear water. These beautifully barren islands are true wildlife havens, sheltering an impressive diversity of birdlife, including the largest black-browed albatross colony on earth. The cold, nutrient-rich waters surrounding the islands make this a prime location for spotting marine life. There are many beautiful areas to explore across the Falklands Malvinas, each offering a unique perspective on this magnificent archipelago. Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing winds, weather and wildlife opportunities. We generally make landings or Zodiac excursions twice a day. Even though we're north of the Antarctic Convergence it can be quite chilly here, so you'll want to layer up before joining Zodiac cruises into rocky coves or along sea cliffs, keeping watch for seals, sea lions, dolphins and porpoising penguins. Zodiacs will also transport you from the ship to land, where you may be able to visit albatross colonies, penguin rookeries and perhaps even have a traditional English 'tea and scones' at a local cottage.

DAY 7: At Sea - Days 7-8

Between the Falklands~Malvinas and South Georgia, you will be entranced by the ceaseless flight of the many seabirds that follow our wake, skilfully using the air currents created by the ship to gain momentum. On this leg, we are usually travelling into the prevailing weather so it is difficult to estimate our precise arrival time in South Georgia. Our lecture program will continue highlighting all of the incredible sights we have witnessed over the past few days. You will have ample time to enjoy observing the sea birds, whale-watching from the observation areas, or simply relaxing with a book. If time and weather conditions permit, we may pass close to Shag Rocks, a fascinating group of jagged rocky islets protruding from the sea, in the proximity of South Georgia.

FALKLAND ISLANDS - SYLVIA EARLE | SUBANTARCTIC SAFARI

DAY 9: South Georgia - Days 9 to 13

As you near the rugged island of South Georgia, spare a thought for Captain James Cook, who arrived here in 1775 and believed it to be the northern tip of a great southern continent! In fact, it is a small island only 176 km (110 mi) long, but with a 3,000 m (9,842 ft) snow-capped mountain range, some of the world’s largest congregations of wildlife and a truly fascinating human history, South Georgia is an island of incredible riches. We generally make landings or Zodiac excursions twice a day. Make sure you layer up before joining Zodiac cruises around craggy coves and along the rocky coastline in search of nesting penguins, seal haul-outs and bird cliffs. Remember to keep an eye out for South Georgia’s kelp forests as well - these remarkable underwater ecosystems are quite mesmerising as their fronds sway back and forth on the water’s surface. In addition to Zodiac cruises and shore excursions, we may ship cruise through fjords with towering cliffs of ancient stone, or into deeply indented bays towards dramatic glacier fronts. This is a great time to find a comfy spot in the observation lounge or make your way to the bridge to enjoy uninterrupted views of South Georgia’s majestic coast.

DAY 14: At Sea - Days 14 to 16

On our return sailing to Ushuaia, you may choose to spend your time editing photos, enjoying the onboard facilities, or listening to an informative lecture.

FALKLAND ISLANDS - SYLVIA EARLE | SUBANTARCTIC SAFARI

DAY 17: Disembarkation in Ushuaia

During the early morning, we sail along the Beagle Channel, before quietly slipping into dock in Ushuaia, where we begin disembarking at around 8.00 am. Farewell your expedition team and fellow travellers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature. A transfer to either downtown Ushuaia or to the airport is included in the cost of the voyage. NOTE: At the conclusion of the voyage, we do not recommend booking flights departing Ushuaia prior to 12.00 pm on the day of disembarkation in case there are delays.

SUSTAINABILITY

Chimu Adventures is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

A trip to the Antarctic is a completely different experience and quite unlike any other trip you have probably been on. We use a highly regulated, licensed vessel which is well equipped to operate in this vulnerable ecosystem. We are fully compliant with all rules set down by the IAATO and all activities are governed by the Antarctic Treaty System. We carefully select all ships we work with and choose them for their small size as this creates far less impact on shore landings with wildlife. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller boats such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste, and all waste is carried back to the home port to allow for environmentally conscious waste management and disposal, unlike some of the larger ships which do not facilitate this. This trip begins in Ushuaia where you will have time to sample local food and shop at local boutiques which we encourage individuals to take part in for experience and in support of the local community. We also try to create opportunity to see research and historical sites including the former research station/now museum of Port Lockroy and engage with local history. We discourage the buying of souvenirs made from endangered species or wrongfully taken from the environment i.e. shells. Our pre-departure pack provides you with all the information required for your tour, from what to take with you to practical advice about how to minimise your impact on the Antarctic environment. This pack highlights initiatives such as waste reduction, and how to appropriately engage with wildlife and the environment around you.

For more information visit our [sustainability page](#).
