

ANTARCTIC PENINSULA - JANSSONIUS | WHALE WATCHING VOYAGE

INTRODUCTION

Undertake an incredible adventure to the Frozen White Continent where you will encounter some of the most unique wildlife on Earth. This classic 10 day Antarctica voyage is complete with unforgettable sights and incredible wildlife encounters including a variety of hardy seabirds, potentially 7 different species of penguin and of course migrating whales.

ITINERARY

DAY 1: Embark, Ushuaia

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed “The End of the World,” and sail the mountain-fringed Beagle Channel for the remainder of the evening.

DAY 2: Drake Passage - Day 2 & 3

Over the next two days on the Drake Passage, you enjoy some of the same experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence - Antarctica's natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas - you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson's storm petrels, blue petrels, and Antarctic petrels are a few of the birds you might see.

DAY 4: Antarctica - Day 4 to 7

Gray stone peaks sketched with snow, towers of broken blue-white ice, and dramatically different wildlife below and above. You first pass the snow-capped Melchior Islands and Schollaert Channel, sailing between Brabant and Anvers Islands. Sites you may visit include: Danco Island - Activities here may focus on the gentoo penguins nesting on the island, in addition to the Weddell and crabeater seals that can be found nearby. Neko Harbour - An epic landscape of mammoth glaciers and endless wind-carved snow, Neko Harbour offers opportunities for a Zodiac cruise and landing that afford the closest views of the surrounding alpine peaks. Paradise Bay - You may be able to take a Zodiac cruise in these sprawling, ice-flecked waters, where there's a good chance you'll encounter humpback and minke whales. Pléneau & Petermann Islands - If the ice allows it, you could sail through the Lemaire Channel in search of Adélie penguins and blue-eyed shags. There is also a possibility you'll encounter humpback and minke whales here, as well as leopard seals. Port Lockroy - After sailing through the Neumayer Channel, you may get a chance to visit the former British research station - now a museum and post office - of Port Lockroy on Goudier Island. You may also be able to partake in activities around Jougla Point, meeting gentoo penguins and blue-eyed shags. There are great opportunities also for kayaking and camping here, and when conditions are right, you can even snowshoe around the shore. Wilhelmina Bay & Guvernøren - This is a great place to spot humpback whales. You also may embark on a Zodiac cruise ending at the ghostly wreck of the Guvernøren, a whaling vessel that caught fire here in 1915. Around the Melchior Islands, amid a frozen landscape peopled with icebergs, you may encounter even more whales, leopard seals, and crabeater seals. Conditions on the Drake Passage determine the exact time of departure.

DAY 8: Drake Passage - Day 8 & 9

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

SUSTAINABILITY

We appreciate that voyages to the Antarctic to have an impact on this pristine environment. In light of this, all our voyages are double carbon offset. In addition, we strive to eliminate as many single use plastics as possible from our supply chain. In

ANTARCTIC PENINSULA - JANSSONIUS | WHALE WATCHING VOYAGE

choosing this voyage you are also supporting the fantastic work done by the Antarctic Science Foundation (ASF) and their work in understanding and protecting this unique destination. In addition all voyages support the Mawsons Huts Foundation (MHF). The MHF support the legacy of Sir Douglas Mawson, the legendary Antarctic explorer and scientist. As a member of IAATO we follow strict guidelines appointed by the Antarctic Treaty System to go above and beyond in support of minimizing negative impacts on this pristine landscape. We also encourage clients to look to book pre-and post-accommodation with us, where local businesses will be supported. Our clients also receive restaurant recommendations which support locally owned restaurants.

We carefully select all ships we work with and choose smaller sized vessels to create less impact. We use a highly regulated, licensed vessel which is well equipped to operate in the Antarctic's delicate ecosystem. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller ships such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste. The waste is carried back to the home port to allow for environmentally conscious waste management and disposal.
