

## GREG MORTIMER | ACROSS THE ANTARCTIC CIRCLE VOYAGE

### INTRODUCTION

Undertake this magical journey across the Antarctic Circle. On board the Greg Mortimer you will find the highest degree of safety and comfort as you enter a realm few travellers have the luxury of ever visiting. Thread your way through narrow passages and undertake landings on icy shores with backdrops of ice-clad mountains. Encounter feeding whales, lively penguins and curious seals on this unforgettable journey during the Christmas period.

### ITINERARY

#### DAY 1: Arrival in Ushuaia

Arrive in Ushuaia, where you will be met by a representative of Aurora Expeditions and transferred to your group hotel (preferred flights only). Upon arrival at your included hotel, kindly remind hotel check-in staff to provide you with Aurora Expeditions cabin tags. Please clearly label the tags with your name and ship cabin number.

## DAY 2: Embarkation in Ushuaia

This morning, please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Please take your cabin luggage down to hotel reception by 8.00 AM. Your luggage will be collected from your hotel and transferred directly to port for clearance and delivered to your cabin ahead of your arrival on board. Keep any valuables or personal items with you throughout the day. Once you have checked out of your hotel by 11.00 AM, you have free time before meeting back in the hotel lobby at 2.00 PM to commence a tour of Ushuaia. Alternatively, enjoy time at leisure and make your own way to Prison Museum carpark by 3.45 pm to rejoin the group and transfer to the pier for embarkation. Ushuaia, capital of Tierra del Fuego is located at the shores of the Beagle Channel and surrounded by the Martial Mountains giving you a unique landscape in Argentina, which is the combination of mountains, sea, glaciers and forests. On this introductory tour, you will visit “La Mision” neighbourhood, the old Government House, and the upper area of the city, which offers beautiful panoramic views of Ushuaia and the Beagle Channel. During the excursion you will see the antique houses that belonged to the first families settled in Ushuaia. The excursion ends with a visit to the Old Prison Museum before transferring to the pier for embarkation at approximately 4.00 PM. After embarkation, you’ll have time to settle into your cabin before our important mandatory briefings. As the ship pulls away from port, we’ll gather on the deck to commence our adventure with spectacular views over Ushuaia and Tierra del Fuego. This evening, get to know your fellow expeditioners and friendly expedition team and crew at a welcome dinner.

## DAY 3: Drake Crossing

As we commence the Drake Passage crossing, we make the most of our time getting comfortable with the motions of the sea. Our expedition team prepare you for our first landing with important wildlife guidelines and biosecurity procedures, and start our lecture program to help you learn more about Antarctica’s history, wildlife and environment. Our wildlife experiences begin as we enjoy watching and photographing the many seabirds, including majestic albatrosses and giant petrels following in our wake. They rise and fall skilfully, using air currents created by the ship to gain momentum.

## GREG MORTIMER | ACROSS THE ANTARCTIC CIRCLE VOYAGE

### DAY 4: Drake and South Shetlands

Nearing the South Shetland Islands and the tip of the Antarctic Peninsula on day four, the excitement is palpable with everyone converging on one of the observation decks, watching for our first iceberg. The ocean takes on a whole new perspective once we are below the Antarctic Convergence and are surrounded by the surreal presence of floating ice sculptures. The memory of your first big iceberg sighting is likely to remain with you for a lifetime. Weather permitting, we may attempt our first landing in Antarctica by late afternoon.

### DAY 5: Antarctic Peninsula and Circle - Day 5 to 12

It's almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever. Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24 hours of daylight and the days can be as busy as you wish. We generally make landings or Zodiac excursions twice a day. You'll want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula. In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding. This is a great time to enjoy the observation lounge or make your way to the bridge for uninterrupted views of Antarctica in all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea, and take a quiet moment to experience the wonder of this incredible white continent. On this voyage, we plan to cross the Antarctic Circle, an imaginary line located at the Antarctic Circle at latitude 66°33' South (approximately). This is certainly a special highlight for everyone, and the moment will be celebrated with a toast on the deck. You've earned some boasting privileges, joining a small group of lucky adventurers who've made it to this part of the world. As we approach and cross the circle, you will notice subtle changes in the landscape, icescape, and also in the distribution of wildlife. The waters at this time of year are rich with krill and we hope to see plenty of whales - particularly humpbacks and minke, and enjoy the spectacle of penguins feeding their ravenous chicks.

## DAY 13: Drake Crossing - Day 13 to 14

Today, our landings come to an end as we enter the Drake Passage for our return journey to South America. With lectures and film presentations to complete our Antarctic experience, there is still plenty of time to enjoy the magic of Southern Ocean and the life that calls it home. There is time for reflection and discussion about what we have seen and experienced, and the impact this voyage has had on our attitude to life. As we approach the tip of South America, our Captain may sail close to legendary Cape Horn, weather and time permitting.

## DAY 15: Disembarkation in Ushuaia

During the early morning, we cruise up the Beagle Channel, before quietly slipping into dock in Ushuaia, where we will be free to disembark around 8.00 am. Farewell your expedition team and fellow passengers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature. A transfer to downtown Ushuaia before continuing to the airport is included in the cost of the voyage. NOTE: At the conclusion of the voyage, we do not recommend booking flights departing Ushuaia prior to 12.00 pm on the day of disembarkation in case there are delays.

## SUSTAINABILITY

As a member of IAATO we follow guidelines appointed by the Antarctic Treaty System to go above and beyond in support of minimizing negative impacts on this pristine landscape. We also encourage clients to look to book pre-and post- accommodation with us, where local businesses will be supported. Our clients also receive restaurant recommendations which support locally owned restaurants

We carefully select all ships we work with and choose smaller sized vessels to create less impact. We use a highly regulated, licensed vessel which is well equipped to operate in the Antarctic’s delicate ecosystem. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller boats such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste. The waste is carried back to the home port to allow for environmentally conscious waste management and disposal.
