

# ANTARCTICA - GREG MORTIMER: WILD ANTARCTICA

## INTRODUCTION

Discover the unique Weddell Sea region of Antarctica aboard the new Greg Mortimer, before sailing to the west coast of the Antarctic Peninsula. Encounter vast tabular icebergs in the Antarctic Sound, visit fossil fields and retrace some of Shackleton’s and Nordenskjöld’s historic route. Delight in the Antarctic wildlife from colonies of Adelie, gentoo and chinstrap penguins to orcas, humpback whales and minkes. Your time in Antarctica is maximised by flying between Punta Arenas and King George Island, thereby missing out the crossing of the infamous Drake Passage at least once.

## ITINERARY

### DAY 1: Punta Arenas

Arrive in Punta Arenas, where you will be met by a representative of Aurora Expeditions and transferred to your downtown hotel. Overlooking the Straits of Magellan, the city sits astride one of the world’s most historic trade routes. Today, Punta Arenas reflects a great mix of cultures, from English sheep ranchers to Portuguese sailors, and it remains an utterly fascinating testament to Chile’s rich history. Tonight, we will gather to meet our fellow expeditioners and a briefing on the first leg of our expedition – our flight to Antarctica!

## ANTARCTICA - GREG MORTIMER: WILD ANTARCTICA

### DAY 2: King George Island

This morning we will be transferred to Punta Arenas airport for our early morning charter flight to King George Island, Antarctica. The flight will take approximately one-and-a-half hours. On arrival into King George Island our expedition team is on hand to greet you for your Zodiac transfer to board the Greg Mortimer. You'll have time to settle into your cabin before our important briefings. NOTE: King George Island is located at the northern part of the Antarctic Peninsula in the South Shetland Islands and is one of the most remote places on Earth. A clear sky with perfect visibility is required in order for the plane to take off and land safely. We apologise in advance for any delays.

### DAY 3: Weddel Sea & Antarctic Peninsula - Day 3 to 9

After settling into shipboard life, we will head through the Antarctic Sound to the eastern side of the Peninsula to reach the Weddell Sea. Access into the Weddell is heavily dependent on ice conditions, and our experienced leader will use their expertise to design our voyage from day to day. We aim to make landings or Zodiac excursions two to three times a day. Days will be spent cruising along spectacular ice cliffs, following whales that are feeding near the surface, and landing on the continent and its off-shore islands to visit penguin rookeries, seal haul outs, historic huts, and a few of our other favourite spots along the peninsula. We will generally try for two landings or Zodiac excursions each day; cruising along spectacular ice cliffs; following whales that are feeding near the surface; and landing on the continent and its off-shore islands to visit penguin rookeries, seal haul outs, historic huts, and a few of our other favourite spots along the peninsula. There will be plenty of time for sleep when you get home!

### DAY 10: King George Island to Punta Arenas

As we approach Frei Base on King George Island, it is time to farewell Antarctica and our amazing adventure before boarding our return flight to Punta Arenas, Chile. On arrival at the Punta Arenas airport, you will be transferred to our preferred downtown hotel.

## SUSTAINABILITY

### GUIDANCE FOR VISITORS TO THE ANTARCTIC

RECOMMENDATION XVIII-1, ADOPTED AT THE ANTARCTIC TREATY MEETING, KYOTO, 1994

Activities in the Antarctic are governed by the Antarctic Treaty of 1959 and associated agreements, referred to collectively as the Antarctic Treaty System. The Treaty established Antarctica as a zone of peace and science.

In 1991, the Antarctic Treaty Consultative Parties adopted the Protocol on Environmental Protection to the Antarctic Treaty, which designates the Antarctic as a natural reserve. The Protocol sets out environmental principles, procedures and obligations for the comprehensive protection of the Antarctic environment, and its dependent and associated ecosystems. The Consultative Parties have agreed that as far as possible and in accordance with their legal system, the provisions of the Protocol should be applied as appropriate. The Environmental Protocol was ratified in January 1998.

The Environmental Protocol applies to tourism and non-governmental activities, as well as governmental activities in the Antarctic Treaty Area. It is intended to ensure that these activities, do not have adverse impacts on the Antarctic environment, or on its scientific and aesthetic values.

This Guidance for Visitors to the Antarctic is intended to ensure that all visitors are aware of, and are therefore able to comply with, the Treaty and the Protocol. Visitors are, of course, bound by national laws and regulations applicable to activities in the Antarctic.

### PROTECT ANTARCTIC WILDLIFE

Taking or harmful interference with Antarctic wildlife is prohibited except in accordance with a permit issued by a national authority.

Do not use aircraft, vessels, small boats, or other means of transport in ways that disturb wildlife, either at sea or on land.

Do not feed, touch, or handle birds or seals, or approach or photograph them in ways that cause them to alter their behavior. Special care is needed when animals are breeding or molting.

Do not damage plants, for example by walking, driving, or landing on extensive moss beds or lichen-covered scree slopes.

Do not use guns or explosives. Keep noise to the minimum to avoid frightening wildlife.

Do not bring non-native plants or animals into the Antarctic, such as live poultry, pet dogs

## ANTARCTICA - GREG MORTIMER: WILD ANTARCTICA

and cats, or house plants.

### RESPECT PROTECTED AREAS

A variety of areas in the Antarctic have been afforded special protection because of their particular ecological, scientific, historic, or other values. Entry into certain areas may be prohibited except in accordance with a permit issued by an appropriate national authority.

Activities in and near designated Historic Sites and Monuments and certain other areas may be subject to special restrictions.

Know the locations of areas that have been afforded special protection and any restrictions regarding entry and activities that can be carried out in and near them. Observe applicable restrictions.

Do not damage, remove, or destroy Historic Sites or Monuments or any artifacts associated with them.

### RESPECT SCIENTIFIC RESEARCH

Do not interfere with scientific research, facilities or equipment.

Obtain permission before visiting Antarctic science and support facilities; reconfirm arrangements 24-72 hours before arrival; and comply with the rules regarding such visits. Do not interfere with, or remove, scientific equipment or marker posts, and do not disturb experimental study sites, field camps, or supplies.

### BE SAFE

Be prepared for severe and changeable weather and ensure that your equipment and clothing meet Antarctic standards. Remember that the Antarctic environment is inhospitable, unpredictable, and potentially dangerous.

Know your capabilities and the dangers posed by the Antarctic environment, and act accordingly. Plan activities with safety in mind at all times.

Keep a safe distance from all wildlife, both on land and at sea.

Take note of, and act on, the advice and instructions from your leaders; do not stray from your group.

Do not walk onto glaciers or large snow fields without the proper equipment and experience; there is a real danger of falling into hidden crevasses.

Do not expect a rescue service. Self-sufficiency is increased and risks reduced by sound planning, quality equipment, and trained personnel.

Do not enter emergency refuges (except in emergencies). If you use equipment or food from a refuge, inform the nearest research station or national authority once the emergency is over.

Respect any smoking restrictions, particularly around buildings, and take great care to safeguard against the danger of fire. This is a real hazard in the dry environment of Antarctica.

### KEEP ANTARCTICA PRISTINE

Antarctica remains relatively pristine, the largest wilderness area on Earth. It has not yet been subjected to large-scale human perturbations. Please keep it that way.

## ANTARCTICA - GREG MORTIMER: WILD ANTARCTICA

Do not dispose of litter or garbage on land. Open burning is prohibited.

Do not disturb or pollute lakes or streams. Any materials discarded at sea must be disposed of properly.

Do not paint or engrave names or graffiti on rocks or buildings.

Do not collect or take away biological or geological specimens or man-made artifacts as a souvenir, including rocks, bones, eggs, fossils, and parts or contents of buildings.

Do not deface or vandalize buildings or emergency refuges, whether occupied, abandoned, or unoccupied.
