

THE ARCTIC - SPITSBERGEN, GREENLAND & ICELAND

INTRODUCTION

Explore the Arctic on this 14 day adventure from Longyearbyen to Reykjavik. The Arctic encapsulates unique landscapes and wildlife alike. Experience the High Arctic wilderness and continue on and to see deep fjords and narrow channels with snow covered mountain peaks and impressive glaciers. A great way to experience the Arctic on board the Sea Spirit.

ITINERARY

DAY 1: Longyearbyen, Svalbard

Welcome to Longyearbyen, the Arctic adventure capital of the Norwegian territory of Svalbard and starting point of our expedition. After arriving via scheduled commercial flight, you are free to explore this small but fascinating settlement. Be sure to see the excellent Svalbard Museum and enjoy the shops, cafes and restaurants in the town center. Your hotel for the night has been arranged by us and is included in the price of the voyage.

DAY 2: Embarkation in Longyearbyen

In the afternoon we welcome you aboard the expedition ship M/V Sea Spirit; transfers from the hotel are included. Explore the ship and get comfortable in your home-away-from-home for the extraordinary adventure to come. The long days of summer sunlight illuminate our surroundings as we slip our moorings and sail into a true wilderness where wildlife abounds. The scenery as we sail through Isfjorden on our first evening is spectacular and there is already the possibility of marine mammal encounters.

DAY 3: Exploration of Svalbard - Day 3 & 4

Svalbard is a true High Arctic wilderness and this part of the voyage is a real expedition. Our route and exploration opportunities here are heavily dependent on the weather and sea ice conditions we encounter. Our experienced captain and expedition leader decide the itinerary and continually adjust plans as conditions and opportunities warrant. You can be sure that the best possible advantage will be taken of the circumstances presented to us by Nature in this wild and remote corner of the Arctic. We anticipate exploring in the northwestern part of the island of Spitsbergen. This area contains the archipelago's most impressive scenery and some of the Arctic's best wildlife viewing opportunities. Deep fjords and narrow channels are flanked by jagged snowy mountain peaks. Immense tidewater glaciers calve icebergs into turquoise waters. Fields of flowering tundra are home to grazing reindeer and playful Arctic fox. Bountiful inshore and offshore waters are home to a wide variety of marine mammals. Polar Bears can be spotted anytime, anywhere in and around Svalbard. Also in this area is Ny Ålesund, a former mining town that is now home to an international community of Arctic researchers, complete with museum, gift shop, and post office. This was also a staging area for historic attempts to discover the North Pole.

DAY 5: Across the Greenland Sea - Day 5 & 6

From Svalbard we head southwest across the Greenland Sea toward East Greenland. In these far northern latitudes it is possible to encounter sea ice any time of the year. All along the way we remain vigilant for sightings of marine mammals such as whales, seals, and the majestic polar bear. As we head south, darker nights create a high possibility of seeing aurora borealis.

DAY 7: Exploration of East Greenland - Day 7 to 11

This is expedition cruising at its most authentic. Our itinerary and exploration opportunities in East Greenland are dependent on weather and sea ice conditions. Again you can be sure that our experienced captain and expedition leader will take advantage of every opportunity to experience excellent wildlife viewing, to discover incredible scenery, and to go ashore wherever possible. The Franz Josef Fjord and Kong Oscar Fjord systems are part of Northeast Greenland National Park, the world's largest national park. Scoresby Sund is the largest and longest fjord system in the world. We anticipate exploring these fjord systems to the extent made possible by ever-changing ice conditions. This whole area contains some of the Arctic's most impressive scenery. Deep fjords and narrow channels, flanked by ice-clad peaks up to 2000 meters high, reach far into the mountainous heart of Greenland. Tidewater glaciers create colossal icebergs that float with wind and tide throughout the fjord system. On shore, fields of multicolored tundra are home to musk oxen and Arctic hare. The landscape—vast, open, and seemingly untouched since the beginning of time—is a hikers' paradise. Throughout this area we also find ancient Thule archeological sites, historical trappers' huts, and modern Inuit hunters' cabins. The Inuit village of Ittoqqortoormiit is the only permanent settlement in the region. The community boasts an excellent museum, a gift shop, a post office, an abundance of Greenlandic sled dogs, and of course the opportunity to meet Inuit people. The days are filled with memorable excursions, sumptuous meals, presentations by our experts, and enough stunning scenery to fill your camera and overwhelm your emotions. Each night brings new possibilities for incredible displays of aurora borealis—the Northern Lights. This is the perfect time and one of the world's best places to experience this otherworldly celestial phenomenon.

DAY 12: Across the Denmark Strait

After our amazing time in East Greenland we cross Denmark Strait toward Iceland, crossing the Arctic Circle on the way. Presentations and workshops by our expert staff, as well as our range of onboard recreation facilities, ensure that this day at sea is not idly spent. Seabird viewing and whale sightings can be enjoyed from panoramic open decks as well as exterior stateroom windows and balconies.

DAY 13: Snæfellsnes, Iceland

The famous Snæfellsjökull volcano and picturesque Kirkjufell mountain are dominant features in the impressive landscape of the Snæfellsnes peninsula. A rich cultural and literary history and the success of fishermen and merchants are evident in local fishing villages.

DAY 14: Disembarkation in Reykjavík

After breakfast we say farewell in Reykjavík, the capital of Iceland and ending point of our expedition. We provide a transfer to the airport or to the city center if you wish to spend another day or more in Iceland before flying home. Reykjavík is home to a wealth of cultural institutions such as museums, galleries, and the Hallgrímskirkja church. Leisure possibilities inside the city include parks, gardens, and thermal baths. You can also take advantage of Reykjavík's wide range of shopping possibilities, excellent dining options, and famous nightlife. And of course the entire country of Iceland is accessible through day tours or longer journeys by rental car. The options for additional adventures are endless!

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the

THE ARCTIC - SPITSBERGEN, GREENLAND & ICELAND

return to the local community.

3) Chimu’s “Pass it on” programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.

4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.

5) Chimu Adventures’ offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure’s internal processes are also structures to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
