Today you will enjoy a full day expedition to the mighty Perito Moreno Glacier with both an active and a less active option available in the morning. For the less active option, you can take an hour-long Navigation across the southern arm of the glacier aboard a large motorized catamaran, offering both indoor and outdoor viewing areas to the massive ice wall of Perito Moreno. You will enjoy our box lunches at the glacier before your afternoon activity. After lunch we will enjoy a leisurely one to two hour-long walk across the multi-level observation boardwalk in front of the Perito Moreno Glacier. This feat of engineering is the best way with which to appreciate this mammoth ice structure and its famous calving phenomenon.
