DURATION

10 Days

LOCATIONS

New Zealand and Subantarctic Islands

INTRODUCTION

Explore the beauty of New Zealand's southern island on this unforgettable 10 day expedition on board Le Soleal. Experience extraordinary wildlife and a unique mix of Maoro, French and European cultural heritage as you set sail from Wellington. Entering the South West New Zealand World Heritage area you will be left in awe by the dramatic vistas of Milford, Doubtful and Dusky Sound. Onward, to the Snares you will find a wildlife haven including nearly 35000 nesting penguins and 1000 fur seals. This is a truly unique expedition to one of the worlds most unique corners.

ITINERARY

DAY 1: Arrival and Embarkation in Dunedin

Dunedin is New Zealand's oldest city and is often referred to as the Edinburgh of New Zealand. This city of the south, wears its Scottish heritage with pride. The city contains some of the best preserved Victorian and Edwardian architecture in the Southern Hemisphere. The Silverpeaks hinterland to the North West provides a picturesque backdrop and The Otago Peninsula, which lies within the city boundaries, has internationally renowned wildlife reserves, including the only mainland breeding colony of Northern Royal Albatross.

DAY 2: Ulva Island

Ulva Island (Te Wharawhara) is the largest of 20 islands within Paterson Inlet, Stewart Island, with an area of approx. 270 hectares. The island has never been logged and was declared pest free in 1997, becoming one of the few predator-free sanctuaries in New Zealand. The island is now a haven for many species of birds and plants that are rare, or have died out, on the mainland of New Zealand. Bird species regularly encountered include: the flightless Stewart Island Weka, South Island saddleback, yellowhead and Stewart Island robin. Ulva Island is not only a bird enthusiast's paradise, it is also one of the few offshore islands with a largely undisturbed podocarp forest. Well-maintained tracks offer easy walking for most people providing a unique opportunity to see rare birds and plants at close quarters in a safe environment.

DAY 3: Dusky Sound

Dusky Sound is one of the most isolated fjords in Fiordland National Park. This huge, protected natural zone situated in the south-west quarter of New Zealand's South Island is listed as UNESCO World Heritage. The sheer cliffs, waterfalls, shimmering lakes and primitive forests here are each more beautiful than the next. These spectacular landscapes sculpted by successive glaciations are a source of endless wonder. In 1773, the British navigator James Cook spent a few weeks at Dusky Sound, as demonstrated by a plaque that can be seen at Astronomer's Point. During your sailing, observe the richness of the local wildlife: cormorants, seagulls, New Zealand fur seals, but also Fiordland crested penguins, a rare and endemic species. Weather and time permitting you may explore the Sound from our fleet of Zodiac.

DAY 4: Doubtful Sound

Referred to as the 'Sound of Silence', there is a secluded serenity that surrounds Doubtful Sound in contrast with the better-known Milford Sound. Both are part of the Fiordland National Park, a UNESCO World Heritage Site. Lieutenant James Cook named 'Doubtful Harbour' in 1770 as he was uncertain if it was navigable under sail. Doubtful Sound is the deepest of the fiords with a maximum depth of 421 m. It contains three distinct 'arms' and several outstanding waterfalls in the area from Deep Cove to the open ocean. Your ship will spend time navigating around Secretary Island through both Thompson and Doubtful Sounds. You will enjoy the spectacular scenery from the outer decks.

DAY 5: Milford Sound

Milford Sound fiord is among one of the most beautiful natural sites in New Zealand. So much beauty will quite simply take your breath away. Located on the south-west coast of South Island, in the Fiordland National Park, this sumptuous inlet carved out by glaciers advances over at least 15 kilometres inland, in the Southern Alps. Majestic cliffs seem to surge out of the dark waters, rising several hundred metres high: an abrupt relief from where impressive waterfalls cascade.

DAY 6: The Snares

Amongst the Subantarctic Islands of New Zealand, the Snares have the distinction of being the only forested group without introduced mammals, not even mice. Consequently, it is a remarkable haven for wildlife. The island boasts more nesting seabirds than the entire realm of the British Isles. Over 2 million Sooty Shearwaters breed here in the summer months. Four species of Albatross are listed as breeding on the Snares along with 35,000 endemic Snares crested penguins. There are also approximately 1,000 New Zealand fur seals and 500 New Zealand sea lions. Landing on the Snares is prohibited. If time and weather permit, you will have the opportunity to explore the coastal environments and view the prolific wildlife from our fleet of Zodiac.

DAY 7: At Sea

During your day at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This day without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

DAY 8: Akaroa

Set on the east coast of South Island, Christchurch is New Zealand's second-biggest city. You can soak up its easy-going atmosphere in one of the many parks and gardens that give Christchurch its nickname 'the garden city', or dally a while in Cathedral Square to see how the city is transforming itself after the earthquakes of 2010 and 2011. Attractions such as the International Antarctic Centre and Christchurch Gondola ride are as popular as ever, while pop-up cafes, the Cardboard Cathedral and community art projects showcase the citizens' resilience. The beautiful port of Akaroa, where ships dock, is about 90-minute drive from Christchurch on the Banks Peninsula.

DAY 9: Kaikoura

Located on the South Island of New Zealand, the small town of Kaikōura stretches between the South Pacific and the snow-capped Kaikōura mountain chain, in the heart of a natural and preserved environment that is home to rich and varied wildlife. The peninsular has spectacular limestone formations, and many marine mammals, such as whales, dolphins, seals and sea lions, as well as sea birds can be found near its shores. Initially populated by the original Maori inhabitants for almost a thousand years, the rocky coastlines of Kaikōura then served as an observation post for whalers between the 18th century and the beginning of the 20th century.

DAY 10: Wellington

Crowned with gentle green hills, Wellington Harbour is located in the far south of the North Island. This city offers a charming mix of traditional and modern cultures, bestowing on the New Zealand capital, a unique atmosphere, both friendly and avant-gard. Where some sites, like the large National Te Papa Tongarewa Museum, reflect the city's Maori past, others, like the many cafés and restaurants, affirm the inhabitants' incredible lust for life. Please Note: Disembarkation is scheduled for approximately 7am

SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and

NEW ZEALAND'S FIORDLAND AND SNARES FROM DUNEDIN

tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
