

INTRODUCTION

BOOK AND SAVE: Up to 20% off select cabins and departures.

Discover the unique Weddell Sea region of Antarctica aboard the new Greg Mortimer, before sailing to the west coast of the Antarctic Peninsula. Encounter vast tabular icebergs in the Antarctic Sound, visit fossil fields and retrace some of Shackleton's and Nordenskjöld's historic route. Delight in the Antarctic wildlife from colonies of Adelie, gentoo and chinstrap penguins to orcas, humpback whales and minke. Your time in Antarctica is maximised by flying between Punta Arenas and King George Island, thereby missing out the crossing of the infamous Drake Passage at least once.

WILD ANTARCTICA: PUNTA ARENAS TO USHUAIA 22/23 | GREG MORTIMER

DAY 1: Arrival in Punta Arenas

Arrive in Punta Arenas, where you will be met by a representative of Aurora Expeditions and transferred to our group hotel. Upon arrival at your included hotel, kindly remind hotel check-in staff to provide you with Aurora Expeditions cabin tags. Please clearly label the tags with your name and ship cabin number. Overlooking the Straits of Magellan, the city sits astride one of the world's most historic trade routes. Today, Punta Arenas reflects a great mix of cultures, from English sheep ranchers to Portuguese sailors, and it remains an utterly fascinating testament to Chile's rich history. At approximately 6.00 pm this evening, meet your fellow expeditioners at a voyage briefing. Afterwards, there's free time to enjoy the local cuisine at one of Punta Arenas' many restaurants. (Please note dinner is not included).

DAY 2: Fly Punta Arenas to King George Island

This morning we will be transferred to Punta Arenas airport for our charter flight to King George Island, Antarctica (weather permitting). The flight will take approximately one-and-a-half hours. On arrival into King George Island our expedition team is on hand to greet you for your Zodiac transfer to board the vessel. You'll have time to settle into your cabin before our important briefings. Note: King George Island is located at the northern part of the Antarctic Peninsula in the South Shetland Islands and is one of the most remote places on Earth. A clear sky with perfect visibility is required for safe take-off and landing. We apologise in advance for any delays.

DAY 3: Weddell Sea and Peninsula - Day 3 to 9

It's almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever. Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24 hours of daylight and the days can be as busy as you wish. We generally make landings or Zodiac excursions twice a day. You'll want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula. In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding. This is a great time to enjoy the observation lounge or make your way to the bridge for uninterrupted views of Antarctica in all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea, and take a quiet moment to experience the wonder of this incredible white continent. Be spoiled for wildlife encounters as the Weddell boasts a large Adélie penguin colony just outside of the Antarctic Sound, some of which breed on the rocky slopes of a small volcanic island, where a large colony of Antarctic blue-eyed shags jostle for space with nest-building Wilson's storm petrels. On thrilling Zodiac cruises or slicing a path through the maze of sea ice in your kayak, keep watch for chinstrap and gentoo penguins in and out of the water, as well as humpback, minke and orca whales. Your camera is sure to get a solid workout during your time in the

DAY 10: Drake Passage - Day 10 to 11

Our landings come to an end as we enter the Drake Passage for our return journey to South America. With lectures and film presentations to complete our Antarctic experience, there is still plenty of time to enjoy the magic of Southern Ocean and the life that calls it home. There is time for reflection and discussion about what we have seen and experienced, and the impact this voyage has had on our attitude to life. As we approach the tip of South America, our Captain may sail close to legendary Cape Horn, weather and time permitting.

DAY 12: Disembark in Ushuaia

During the early morning, we cruise up the Beagle Channel, before quietly slipping into dock in Ushuaia, where we will be free to disembark around 8.00 am. Farewell your expedition team and fellow passengers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature. A transfer to the airport or to your hotel is included in the cost of the voyage. Note: At the conclusion of the voyage, we do not recommend booking flights departing Ushuaia prior to 12.00 pm on the day of disembarkation in case there are delays.

SUSTAINABILITY

Chimu Adventures is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

A trip to the Antarctic is a completely different experience and quite unlike any other trip you have probably been on. We use a highly regulated, licensed vessel which is well equipped to operate in this vulnerable ecosystem. We are fully compliant with all rules set down by the IAATO and all activities are governed by the Antarctic Treaty System. We carefully select all ships we work with and choose them for their small size as this creates far less impact on shore landings with wildlife. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller boats such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste, and all waste is carried back to the home port to allow for environmentally conscious waste management and disposal, unlike some of the larger ships which do not facilitate this. This trip begins in Ushuaia where you will have time to sample local food and shop at local boutiques which we encourage individuals to take part in for experience and in support of the local community. We discourage the buying of souvenirs made from endangered species or wrongfully taken from the environment i.e. shells. Our pre-departure pack provides you with all the information required for your tour, from what to take with you to practical advice about how to minimise your impact on the Antarctic environment. This pack

WILD ANTARCTICA: PUNTA ARENAS TO USHUAIA 22/23 | GREG MORTIMER

highlights initiatives such as waste reduction, and how to appropriately engage with wildlife and the environment around you.
