On this 11-day inspiring cruise, we explore the Great White Continent's magnificent landscapes, glacial mountains, and incredible wildlife before reaching 66°33' S the Antarctic Circle. Your voyage departs from the southernmost city in the world, leaving through the Beagle Channel and out into the Drake Lake (or Shake). The Ocean Victory has purpose-built with stabilizers, powerful engines, and the patented reclining bow, which ensures stability and comfort in the rough seas of the Drake Passage.

Once you reach Antarctica, we enjoy the calming silence and alluring beauty of the Antarctic mainland during hikes and Zodiac excursions. Spread in isolation along the coast, we also see a number of manned and unmanned research stations, which we aim to visit before accomplishing our goal of crossing the Antarctic Circle at 66°33' S. Here, the sun is up for 24-hours a day during the austral summer. Our expedition may include visits to sites such as Pleneau and Petermann Islands, Crystal Sound and Fish Island.

Dense pack ice forbids many ordinary vessels from reach this far south, but with a high ice-class rating, Ocean Victory moves swiftly carrying us on an adventure for life.

DAY 1: Embarkation Ushuaia - Day 1

Arrive in Ushuaia, Argentina - the world's southernmost town. Explore the quaint city or local countryside. Alternatively, consider a day trip off the beaten path to the raw, natural archipelago of Tierra del Fuego. It's a hiker's paradise with rugged snow-capped mountains, glaciers, flower-filled meadows and boggy quagmires. In the afternoon, we board our ship, Ocean Victory. Our journey begins as we navigate through the calms of Beagle Channel, a strait in the Tierra del Fuego Archipelago.

DAY 2: At Sea - Cross Drake Passage - Day 2-3

In the Drake, the excitement builds as Antarctic wildlife comes into view with our first sight of seals, penguins, and albatrosses. As well as the first icebergs as we approach the South Shetland chain of islands. With the unique X-BOW design, the Ocean Victory will offer you a smoother sailing across the Drake passage than conventional expedition vessels - and with a far less carbon emission.

DAY 4: South Shetland Islands - Day 4-5

Over the next two days, we will explore to the sub-Antarctic islands of the South Shetland chain. Projected landfalls could include: King George Island; Deception Island, an extinct volcano; Half Moon Island with nesting Wilson's storm petrels and chinstrap penguins. The route and shore landings will be determined by the captain and expedition leader and communicated to guests through regularly scheduled briefings.
