## ITINERARY

### DAY 1: Reykjavik and Embark

Welcome to Iceland! Use your leisure time in Reykjavik to discover the unique charm of the world's northernmost capital and book one of our pre-programmes (prices on request). The SEAVENTURE docks in Old Reykjavik Harbor in the heart of the city, a five-minute stroll from the main squares, shopping and dining. The ship departs in the evening.

### DAY 2: Snaefellsnes Peninsula

Depending on the weather Arnarstapi or Grundarfjordur is the starting point of our adventures on the Snaefellsnes Peninsula. Often called "Iceland in Miniature" because of its diverse landscapes, the area is home to bird-rich Breidafjordur Bay and Snaefellsjokull glacier. This glacier sits atop of a 700,000-year-old dormant volcano that was featured in the Jules Verne novel Journey to the Center of the Earth.

### DAY 3: Isafjördur

Today's destination is Isafjordur, an idyllic town in the Westfjords region. This secluded peninsula is connected to the Icelandic mainland by only a narrow strip of land and includes many roadless areas where cars have never been. The landscape includes jaw-dropping views of dramatic fjords carved by ancient glaciers, sheer table mountains that plunge into the sea and pristine North Atlantic vegetation.

### DAY 4: Siglufjordur/Grimsey

By morning we reach the fjord town of Siglufjordur, once the hub of the global herring industry and now enjoying a rebirth in popularity. Learn about the golden age of herring at the award-winning Herring Era Museum located on the vibrant harbor-front. In the early afternoon we head to Grimsey. Grimsey is about 40 km to the north from Iceland, right on the Arctic Circle. Here you can see many species of birds, including puffins, Guillemots and various species of gulls.

## DAY 5: Flatey/Husavik

In the morning we visit Flatey Island. It’s a natural haven for birdlife and home to the arctic tern and puffins, which can be observed at close quarters. In the early afternoon we steam further into the Skjalfandi Bay and visit Husavik.

## DAY 6: Husavik

Husavik is often called the “Whale watching capital” of Iceland, the town’s offshore waters are home to 15 different whale species, as well as dolphins and 30 varieties of birds. Watching these graceful ocean giants in their Arctic habitat is an unforgettable experience.

## DAY 7: Seydisfjörður

Iceland’s East Fjords are best explored from the impossibly picturesque port of Seydisfjörður, nestled between the sea and steep mountains. Activities include seal spotting, horseback riding, and visiting the beautiful sights of the Eastfjords.

## DAY 8: Djupivogur

The fishing village of Djupivogur is today’s starting point to explore Vatnajökull Glacier (optional). Go on a four wheel-drive Jeep tour (optional) or take a boat trip in the Jokulsarlon glacier Lagoon (optional). Icebergs of all shapes and sizes are floating in the water - an unforgettable adventure.

## DAY 9: Vestmannaeyjar (Westman Islands)

Located off Iceland’s South Coast, the Westman Islands were formed by submarine volcanic eruptions around 10,000 years ago. We go ashore on Heimaey, the only inhabited island, where half-buried houses remain from a violent 1973 eruption. During the shore landing there is time for bird watching and you might even spot whales.

## DAY 10: Disembark in Reykjavik

After breakfast we bid farewell to the SEAVENTURE as we sail back into Reykjavik. Please note: If you are departing Iceland today do not book any flights that departure before midday from Keflavik airport.

## SUSTAINABILITY

Chimu Adventures is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

We ensure that we have as little negative impact on the wildlife as possible and minimise disturbances. We also encourage the education and visitation of protection and conservation services, specifically associated with the area. You will also find that we visit many locations and landmarks of which we encourage you to explore yet advise you to remain culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in pre-departure information and en-route by guides and staff. Furthermore, in our further efforts of supporting the communities, a percentage of the funds generated from your tour (10%) will go back to our charities and assist us supporting the next generation and the environment they live in.

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

For more information visit our [sustainability page](#).
