### DAY 2: Coffee Process & Tasting Tour

You can't travel to Salento without taking the time to have a sip of the local coffee to start your day. Today you will tour El Ocaso Coffee Plantation where you will learn everything from why this geographic location is suitable to plant coffee to how it's planted and picked by hand. You will also discover the process involved in producing coffee from the beans and how to best prepare a cup that you can then enjoy. The coffee at El Ocaso has a distinct smell and will leave a unique flavour on your tastebuds. The surrounding scenery of the plantation is also breathtaking and several bird species can be spotted while on tour. After your coffee pick me up, you will return to Salento where you can enjoy some free time at the hotel or wander into town and find a restaurant to try the local trout.

### DAY 3: Valle de Cocora

Situated within the Los Nevados National Natural Park you will find the Cocora Valley, or Valle de Cocora. Today you will travel to this region and enjoy a local cocktail on arrival called canelazo. This drink is made from brown sugar, cinnamon, cloves, orange and lime juice with Colombian aguardiente, or firewater. You will then take a hike along one of the trails to see the national tree of Colombia, the wax palm. These trees grow to an incredible height of almost sixty metres and are found all over the steep grassy hills of the Cocora Valley. Returning to Salento, enjoy a walking tour through the town, taking in colourful street of Calle Real and the lively square of Plaza de Bolivar. At the centre of the square you will see a statue of Simon Bolivar. It's said the liberator passed through Salento on the Quindio pass after crossing the Andes and ordered an upgrade to the pass, leading the town to grow and flourish. There are many handicraft shops in town where you can purchase a souvenir before returning to your hotel.

We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
