During an 19-day arctic expedition voyage, walk in the footsteps of the greatest explorers in South Georgia and along the White Continent's coasts. Walk in the footsteps of the greatest explorers in South Georgia and along the White Continent's coasts. These great figures—Jan-Baptiste Charcot, Adrien de Gerlache, and Ernest Shackleton—call to mind the most incredible journeys that you will have the opportunity to experience.

You'll depart Ushuaia and go to South Georgia. During the renowned Endurance Expedition in 1916, Sir Ernest Shackleton somehow got aground there amid the snow-covered mountains. He then went back to retrieve the remainder of his crew, who had been left behind on the isolated Elephant Island. You will go back in time to learn more about this amazing narrative and life during this little-known period of history. To get to the frozen coasts of the almost inaccessible White Continent, Antarctica, you must sail via the Southern Ocean. As it covers the icebergs, glaciers, mountains, and frozen sea all around you, white tints assume a thousand subtleties. You will be one of the select few tourists to have seen this renowned place, which served as the setting for the biggest expeditions and the scene of the most incredible exploits.

Our team of naturalist guides will reveal to you the mysteries of these remote places home to unusual creatures along your journey. Find out where the Adelie, King, Chinstrap, Gentoo, Magellanic, and Southern Rockhopper penguins live, along with albatrosses, many species of seals, and beautiful whales spouting in the distance. You will have to travel via the Drake Passage in order to disembark in Ushuaia, Tierra del Fuego. You will enter this fabled maritime path at the boundary between the Atlantic and Pacific oceans. Till the end of your adventure, the wind blows, the waves pound the ship's stem, and you are accompanied by cape petrels in the sky.

### DAY 12: Antarctic Peninsula - Days 12 to 16

Succumb to the magic of a place unlike any other. To this day, the mythical Antarctic Peninsula still holds real fascination and promises its visitors unforgettable moments. Throughout your adventure in this icy realm, you will find yourself in the heart of a spectacular decor in subtle shades of blue and white, surrounded by exceptional wildlife. Penguins, humpback whales, seals and giant petrels are at home here, as are elephant seals, fur seals, Antarctic minke whales, and orcas. Depending on which sites you will be lucky enough to visit, you may get the chance to observe them and share with them the beauty of these extreme parts. Each day, based on ice conditions, the Captain and the Expedition Leader will suggest zodiac outings or landings to discover the infinite riches of the Antarctic Peninsula. Glaciers, ice floe, tabletop icebergs, mountain peaks that plunge straight into the sea, volcanic beaches, research stations, enchanting bays, and vestiges of the whaling industry: these are the faces of the Antarctic that will likely reveal themselves to you, in a hushed and surreal atmosphere. You will sail in the wake of Jean-Baptiste Charcot, Adrien de Gerlache and Sir Ernest Shackleton, great Antarctic explorers who, from the 19th century, set out to conquer these remote and uninhabited lands.

### DAY 17: Crossing the Drake Passage - Days 17 to 18

If there is one place, one sea, one waterway dreaded by tourists, researchers and hardened seafarers alike, it is undoubtedly Drake Passage. Situated at the latitude of the infamous Furious Fifties winds, between Cape Horn and the South Shetland Islands, it is the shortest route to connect Antarctica to South America. Seasoned navigators will tell you that you must earn your visit to the White Continent! As the Antarctic convergence zone where cold currents rising up from the South Pole meet warmer equatorial water masses, Drake Passage harbours a very diverse marine fauna. Don't forget to look to the sky to catch a glimpse of elegant albatross and Cape petrels, playfully floating about in the wind around your ship.
