DAY 9: Antarctic Peninsula - Days 8 to 10

As we make our way into Antarctica's ethereal landscape, you can't help but take a deep breath and imagine what the early Antarctic explorers must have felt - to be the first humans to leave a footprint in the continent's freshly fallen snow. You'll witness countless penguins coming ashore to eagerly reunite with their mates and begin building nests, while yawning Weddell seals entertain from the nearby ice. Thanks to Seaventure's ice-strengthened hull, we'll let the spirit of exploration propel us into some of Antarctica's most remote and picturesque bays and harbors, where an opportunity to land on sea ice may present itself. Twice daily outings are always the goal, typically getting you up close and personal with Antarctica for six or more hours a day. Even when we're on the ship we remain up close and personal as we break through ice, circumnavigate icebergs, and pause for whales breaching right in front of us. Whether you're in a kayak or a Zodiac, don't forget to look down as well as up. This time of year, the water is so clear, opportunities for wildlife sightings are literally everywhere.
