INTRODUCTION

Enjoy this remarkable voyage around Spitsbergen. Here you will have the chances to see the polar bears, walrus, reindeer, various bird species and surprisingly beautiful flora. Take a cruise around Spitsbergen and explore the magical waters of the Northern Arctic. From a tundra walk on the shores of Reindyrsflya to the impressive Monaco Glacier at Liefdefjorden - This is a truly remarkable journey that combines unforgettable sights, unique wildlife encounters and extraordinary expedition experiences

ITINERARY

DAY 1: Embark in Longyearbyen

You touch down in Longyearbyen, the administrative center of Spitsbergen, the largest island of the Svalbard archipelago. Enjoy strolling around this former mining town, whose parish church and Svalbard Museum make for fascinating attractions. Though the countryside appears stark, more than a hundred species of plant have been recorded in it. In the early evening the ship sails out of Isfjorden, where you might spot the first minke whale of your voyage.

THE ARCTIC - AROUND SPITSBERGEN

DAY 2: Cruise along the 14th of July Glacier

Heading north along the west coast, we arrive by morning in Krossfjorden, where we board the Zodiacs for a cruise along the sculpted front of the 14th of July Glacier. On the green slopes near the glacier, a colourful variety of flowers bloom, while large numbers of Kittiwake and Brünnich's Guillemot nest on the nearby cliffs. There is also a good chance of spotting Arctic Fox, who patrol the base of the cliffs in case a chick falls from its nest, and Bearded Seal, who cruise this fjord. In the afternoon we sail to Ny Ålesund, the world's most northerly settlement. Once a mining village - served by the world's most northerly railway, which can still be seen - Ny Ålesund is now a research centre. Close to the village is a breeding ground for Barnacle Goose, Pink-footed Goose and Arctic Tern. Visitors interested in the history of Arctic exploration will want to walk to the anchoring mast used by Amundsen and Nobile, in the airship Norge in 1926 and Nobile in the airship Italia in 1928, before their flights to the North Pole.

DAY 3: Reindyrsflya & Monaco Glacier

Near the mouth of Liefdefjorden, we will go ashore for a walk on the tundra of Reindyrsflya. Sailing into Liefdefjorden, we will cruise near the face of the impressive Monaco Glacier. The waters of the glacier front are a favourite feeding spot for thousands of Kittiwakes and occasionally Polar Bear are seen on the glacier.

THE ARCTIC - AROUND SPITSBERGEN

DAY 4: Northernmost landing at Phippsøya - Day 4 & 5

We have our northernmost landing at Phippsøya, in the Seven Islands north of Nordaustlandet. Here we will be at 81 degrees north, just 540 miles from the geographic North Pole. Polar Bear inhabit this region, along with Walrus and Ivory Gull. We may sit for several hours in the pack ice, taking in our spectacular surroundings with their own wildlife. When the edge of the sea-ice is tens of miles north of the Seven Islands (mostly in August) we will spend a second day to get to and in the sea ice. Alternatively (mostly in July) we turn to Sorgfjord where we may find a herd of Walrus not far from the graves of 17th century whalers. On a nature walk, we may encounter families of Ptarmigans. The opposite side of the fjord is also a beautiful area for an excursion.

DAY 6: The polar desert of Nordaustlandet

Today we will sail into Hinlopen Strait, home to Bearded Seal, Ringed Seal, Polar Bear, and Ivory Gull. We'll navigate the ice floes of Lomfjordshalvøya in our zodiacs and explore the bird cliffs of Alkefjellet with thousands of Brünnich's Guillemot. On the east side of Hinlopen Strait, we'll attempt a landing at Augustabukta on Nordaustlandet, home to reindeer, Pink-footed Goose, breeding Ivory Gull, and Walrus. Near Torrelneset, we will explore the polar desert of Nordaustlandet, next to the world's third largest ice cap, which meets the sea nearby. We will walk along beautiful coastline covered in smooth rocks, sculpted by the surf over thousands of years. We may encounter Walrus along the way.

THE ARCTIC - AROUND SPITSBERGEN

DAY 7: Barentsøya visit and walk across the tundra

In Freemansundet we plan to land at Sundneset on the island of Barentsøya to visit an old trapper's hut and then take a brisk walk across the tundra in search of Spitsbergen Reindeer and Barnacle Goose. Later we cruise south to Diskobukta on the west side of Edgeøya. After a Zodiac cruise through the shallow bay, we land on a beach littered with whale bones and tree trunks, which have drifted here from Siberia. We can also climb to the rim of a narrow gully which is inhabited by thousands of Kittiwake, together with Black Guillemot and piratical Glaucous Gull. During the breeding season, the base of the cliffs is patrolled by Arctic Fox and Polar Bear, especially females with young cubs, searching for young birds that have fallen from the nesting ledges.

DAY 8: Hornsund area

We start the day quietly cruising the side fjords of the spectacular Hornsund area of southern Spitsbergen, enjoying the scenery of towering mountain peaks. Hornsundtind rises to 1,431m, while Bautaen shows why early Dutch explorers gave the name ‘Spitsbergen’ - pointed mountains - to the island. There are also 14 magnificent glaciers in the area and very good chances of encounters with seals and Polar Bear.

DAY 9: Bell Sund’s flora, fauna, &history

Today you find yourself in Bell Sund, one of the largest fjord systems in Svalbard. The ocean currents make this area slightly warmer than other areas in the archipelago, which shows in the relatively lush vegetation. Here there are excellent opportunities to enjoy both history and wildlife. A possibility is Ahlstrandhalvøya, at the mouth of Van Keulenfjorden, where piles of beluga skeletons can be found. These remains of 19th-century whale slaughter are a haunting reminder of the consequences of rampant exploitation. Fortunately, belugas were not hunted into extinction, and you have a good chance of coming across a pod. Alternately, while cruising the side fjords of Bellsund, you can explore tundra where reindeer like to feed as well as rock slopes where little auks are breeding.

SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.

For more information on our sustainability policies, including how we are striving towards being a paperless organisation, click HERE
