

SPITSBERGEN - ULTIMATE ARCTIC VOYAGE | ULTRAMARINE

Adventurous travellers will get a taste of the Arctic's remarkable diversity on this trip, which includes wildlife, enormous icebergs, towering mountains, historical monuments, vast grasslands, and more.

Your journey starts in the isolated Norwegian island of Spitsbergen, which is well-known for its breathtaking beauty and an abundance of diverse wildlife, including polar bears and walrus. From there, travel south across the Greenland Sea to the enigmatic Jan Mayen, a volcanic nature reserve that is so isolated that only a select few have ever had the good fortune to explore this Arctic gem. Your epic voyage comes to a close with a trip to Reykjavik, where you can immerse yourself in Icelandic culture in a city that never sleeps.

DAY 1: Arrive in Helsinki, Finland

Your Arctic adventure begins in Helsinki, renowned for its extraordinary architecture and intriguing mix of eastern and western influences. If you arrive early, explore the many museums, galleries and restaurants, relax at a Finnish sauna or wander the vibrant Design District before retiring at your included hotel.

DAY 2: Fly to Longyearbyen, Svalbard & Embark

This morning, the group will transfer to the airport and board our private charter flight to Longyearbyen, Spitsbergen's largest settlement, as part of the transfer package. As you embark this afternoon, expect great views of the mountainous landscape that serves as a backdrop for this seaside town.

DAY 3: Exploring Spitsbergen - Days 3 to 6

Exploring Spitsbergen, the largest island in the Norwegian Svalbard archipelago, rewards you with austere beauty and opportunities to spot its abundant wildlife. Here, you'll visit spectacular glacier fronts and tundra in full bloom, with walrus, polar bears and Svalbard reindeer amongst your possible wildlife sightings. Birders will be thrilled to see Arctic terns, skuas, Brünnich's guillemots, black-legged kittiwakes and ivory gulls. If conditions permit, you could sail within 10 degrees of the North Pole!

DAY 7: Crossing the Greenland Sea - Days 7 to 8

While sailing south through the historic Greenland Sea toward Jan Mayen, your Expedition Team will keep you informed with presentations about the history and politics of the Arctic, its fascinating wildlife, geology, ecology and climate, and the incredible sights you will soon explore. On deck, you'll learn to identify seabirds "on the wing." The team will also keep a lookout for the whales that frequent the waters here.

DAY 9: Exploring Jan Mayen

North of the Arctic Circle, about 280 miles (450 km) east of Greenland and 340 miles (550 km) north of Iceland, the mysterious Jan Mayen rises from the depths of the North Atlantic. Often shrouded in thick fog, the small mountainous island was declared a nature reserve in 2010 and is rarely visited, save for the 18 rotating personnel of the Norwegian military and Norwegian Meteorological Institute, who are the only inhabitants. Landing here will be dictated by the weather and sea. If conditions allow, as we approach, keep watch on deck as the spoon-shaped island's highest summit emerges. At 7,470 feet (2,277 meters) high, the breathtaking Beerenberg volcano features a symmetrical cone shape and impressive glaciers that spill into the sea. If we're fortunate, we may get a close-up view of the volcano and the stratified cliffs of the spectacular north coast as we Zodiac cruise along the coast of the island, searching for wildlife. Designated an Important Bird Area by BirdLife International for the large numbers of breeding seabirds, Jan Mayen supports colonies of northern fulmars, little auks, glaucous gulls, kittiwakes, and black and Brünnich's guillemots (thick-billed murre).
