DAY 9: Explore Falkland Islands - Day 9 & 10

There is nowhere else in the world like the Falkland Islands. This archipelago is a remote, wind-swept place of stunning landscapes, dazzling white sand beaches, magnificent wildlife, and a rather gregarious mix of people. Over 200 islands surround the two main islands of West and East Falkland. These isolated and treeless shores are home to an overwhelming abundance of birdlife: albatross, penguins, caracaras, geese, and many others. Perhaps it was the very remoteness of the islands; the allure of its barren landscapes, pure in their austerity and colorful in their details, and the immensely large open skies that attracted settlers to its shores long ago, the islands have an accumulated a wealth of maritime and military history. More than three hundred shipwrecks litter its shores, while the stark white crosses of both British and Argentine soldiers stand as a silent reminder to the war of 1982. Numerous claims for the islands have been put forward in the course of their history. Nowadays the Falkland Islands are a self-governing British Overseas Territory.

DAY 11: Port Stanley - Falklands

The lonely lighthouse at Cape Pembroke welcomes arrivals to Stanley. It alerts ships to the treacherous rocks, reefs and shoals for which the Falkland Islands have long been known. With a population of over 2,000 people, Stanley is the largest settlement on the islands. Its gardens, tea rooms, brightly colored houses and hotels lend it a slightly Victorian feel, seemingly suspended in time. The Anglican Cathedral, the southernmost in the world, stands prominently on Stanley's waterfront. The Falklands' unique abundance of wildlife is evident in Stanley. Dolphins visit its harbor, while steamer ducks, kelp gulls, and other birds abound on shore. Southern sea lions can be spotted basking in the sun. Southern giant petrels often fly through town, oblivious to the human presence. Founded in the 1840s, the town was named after Edward Smith-Stanley, Earl of Derby, who never visited the islands.

DAY 14: Explore South Georgia Island - Day 14 to 16

The South Georgia Islands Group, one of the least visited destinations on earth, is a gem in the heart of the sub-Antarctic. Comprising of South Georgia Island and its smaller surrounding islands and rocks, this untouched paradise houses a rich tapestry of wildlife, thriving in a climate that is as harsh as it is beautiful. Despite the presence of ice and snow, these islands are remarkably green, their vegetation a stark contrast to the icy expanses of Antarctica. This is a Lost Eden where nature reigns supreme, teeming with an array of wildlife that includes vast colonies of king and other penguin species, fur and elephant seals, albatrosses, giant petrels, and other seabirds. Offshore, whales, orcas, and dolphins thrive in the nutrient-rich waters, making this the most diverse marine ecosystem on earth. Your journey through the South Georgia Islands Group is carefully curated by your Expedition Leader based on local conditions and wildlife reports. You'll venture to historic communities like Grytviken, visit the sprawling breeding colony of king penguins on Salisbury Plain, and explore the rarely-visited, lesser-known sites nature allows.

DAY 25: Arrive in Ushuaia

Once deemed too harsh for European settlement, Ushuaia's rugged beauty was the realm of its native inhabitants - the Yahgan People. Today, it holds the distinctive title of being the southernmost city on Earth, often referred to as 'the end of the world.' Situated along the banks of the Beagle Channel, Ushuaia unveils itself like an artist's masterpiece. A mosaic of vibrant houses adds a splash of color against the dramatic backdrop of snow-capped mountains. Dominating this breathtaking panorama is Monte Olivia, its jagged peaks soaring 4,530 feet above the landscape. The terrain transforms from dense forests of Southern beech trees at sea level to alpine ecosystems as you ascend. Thanks to its strategic location and proximity to the Antarctic Peninsula, Ushuaia has earned its status as the gateway to the Great White Continent. Yet, Ushuaia is more than just a stepping stone to Antarctica. It's a treasure trove of natural history, indigenous heritage, and the spirit of exploration. From embarking on awe-inspiring treks in the nearby Tierra del Fuego National Park to delving into the rich narratives at 'The End of the World' museum, Ushuaia promises a plethora of experiences that cater to the curious and the adventurous alike. *Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.
