INTRODUCTION

A taste of everything that Spitsbergen has to offer, starting with its main community, Longyearbyen, is offered by this intriguing excursion.

On this exciting journey, we show you why the largest island in the Svalbard archipelago is referred to as the "wildlife capital of the Arctic." This 11-day journey will have a major emphasis on searching for the region's plentiful animals, such as walrus, reindeer, and the most famous Arctic resident, the polar bear, in their natural habitat while taking in the bizarre experience of constant daylight. Join us on an engrossing journey to a far-off, unforgettable region as we explore the distinctive Arctic landscape, trek the wide and colourful tundra, and discover the history and geology of this lonely environment.

DAY 2: Embarkation Day in Longyearbyen, Svalbard

This morning, the group will transfer to the airport and board our private charter flight to Longyearbyen, Spitsbergen's largest settlement, where you'll have some time to explore before embarkation. As your ship sets sail, enjoy your first view of the island's rugged, glacier-topped mountains rising majestically from icy waters.

DAY 3: Exploring Spitsbergen - Day 3 to 9

You'll cruise around this magical island on a constant search for wildlife. Your expedition will cover western Spitsbergen as well as stunning fjords and outlying islands to the north. From polar flora to immense glaciers, the natural landscape here is just as varied as the wildlife. Each expedition presents new opportunities and different weather and ice, so there is no fixed itinerary; however, some of the places we may visit include the 14th of July Glacier, Smeerenburg, Alkefjellet and the Hinlopen Strait. The destinations visited will be selected for optimum wildlife viewing with an appreciation of the history and geology of Spitsbergen. The island offers multiple opportunities for wildlife photography. Spotting polar bears is more likely here than almost anywhere else, as the Svalbard archipelago is one of their preferred hunting areas. The towering cliffs of Alkefjellet provide homes to thousands of Brünnich's guillemots (thick-billed murre). Coming across a walrus haul-out is a moment you won't soon forget. These giant pinnipeds of the Arctic create quite a noisy scene as each walrus vies for a choice spot of coastline. If you're itching to experience a more intimate view from the water, you can book the sea kayaking or paddling excursion adventure options. In Spitsbergen, there is no shortage of natural beauty. The tundra can be surprisingly colourful in summer, with wildflowers bursting for a taste of sunshine. Each day, you'll see something interesting, whether it is unique arctic wildlife a polar bear resting between hunts, or abandoned sites from centuries ago.
