

# THE ARCTIC - SVALBARD IN SPRING | ULTRAMARINE

## INTRODUCTION

**Traveling in spring offers a rare view of Svalbard as it shifts from winter to summer. You will experience continuous daylight, extensive snow cover, tundra plants beginning to appear and dynamic sea ice as it cracks and melts.** Wildlife viewing is the focus of this expedition cruise, with chances to see polar bears, seals, walruses, Arctic foxes, seabirds, and possibly whales beginning their seasonal migration. Experiences include guided shore excursions on snow-covered terrain, time on deck scanning the ice edge, as well as zodiac exploration through the fjords provide close access to glaciers and icebergs. You will never be short of photographic opportunities in this dramatic Arctic landscape and pristine ecosystem. Flexible routing to follow the best conditions for wildlife and scenery, this itinerary really offers a comprehensive view of life in the High Arctic.

## ITINERARY

### DAY 1: Arrive Helsinki, Finland

Arrive in the Finnish capital and make your way to the group hotel located right at Helsinki airport, included in your Charter Flight & Hotel Package. You will have the rest of the day to explore explore the many museums, galleries and restaurants, relax at a Finnish sauna or wander the vibrant Design District. If you do plan to visit Helsinki city center, take advantage of the convenient 40-minute rail service from the airport.

### DAY 2: Fly to Longyearbyen for embarkation

After breakfast, the group will transfer to the Helsinki airport and board our private charter flight to Longyearbyen, included in your Charter Flight & Hotel Package. Our journey to the High Arctic now truly begins. You will see the coastal and birch forests of southern Scandinavia give way to taiga and tundra environments, the mountains of Norway and northern Sweden, and the convergence of the Norwegian and Barents seas. Approaching Svalbard, you may get your first views of a pure, snowcapped wilderness, complete with ridgelines, glaciers, and perhaps even sea ice in the distance. We land in Longyearbyen, Svalbard's largest settlement, and transfer to the harbor where we will embark on our ship.

## DAY 3: Springtime in the Svalbard wilderness

Spring in Svalbard is characterized by a beautiful combination of snow, ice and Midnight Sun. A fascinating contrast unfolds with the arrival of spring: majestic polar landscapes illuminated by continuous daylight. Sea ice is at or near its annual maximum, drawing us north. If experiencing Arctic sea ice is on your bucket list, you have chosen the perfect time to visit. Your Expedition Team and Bridge Officers will consult the latest ice charts daily—sea ice is incredibly dynamic and can drift dozens of kilometers in a day. Our route will depend on where sea ice offers the best opportunities for exploration and wildlife encounters. Sea ice is the primary hunting, resting, and travelling platform for iconic Arctic species—and spring offers the best chance to see it all. As we navigate the ice edge—or even through it—spend time on deck with your binoculars at the ready. Somewhere in the maze of marooned icebergs and pressure ridges, wildlife may be present—perhaps even polar bears who are lured to the ice edge by the presence of seals—a primary food source. Watch for clues, shapes, and shadows that could signal something special. And while polar bears may be the main goal, you may also spot walrus, Arctic foxes, and ivory gulls—in addition to ringed and bearded seals. On shore, spring landscapes remain blanketed in snow, with many bays still filled with ice—habitat crucial to Arctic wildlife for food and survival. It's the kind of scenery that embodies the word "pristine." On sunny days, snowcapped ridges against cobalt skies are electric in their beauty. On cloudy days, the Arctic's muted palette of whites, greys, and blues creates moody, powerful vistas. Photography tip: try switching your camera to black-and-white mode—textures become dramatic, and light behaves differently. Alongside drifting sea ice, you may see icebergs and bergy bits—fragments of glacial ice whose origins lie deep in mountain valleys. Spring in the Arctic is also a time of awakening. As we travel, we'll witness this seasonal transformation firsthand. Some slopes, beaches, and valleys begin to melt faster than others, revealing bare ground untouched for months. Grasses and mosses emerge, seizing every opportunity to photosynthesize in the returning sunlight. Meltwater trickles grow into fast-flowing runoff, adding sound and motion to the awakening landscape. Yet spring remains cold. In fact, these areas may go through multiple freeze-thaw cycles, especially farther north and east. In Svalbard, this mesmerizing transition is vivid and inspiring—a reminder to all of us of the powerful rhythms of Arctic life. Spring also welcomes migratory birds and whales. As the season unfolds, cliffsides will become busy with seabirds, such as little auks, guillemots and kittiwakes, returning to breed. Each day brings new arrivals. Nest-building, courting, and bird calls fill the air in a sensory-rich spectacle. When we encounter these colonies, take time to pause. Put down your camera. Simply observe the vibrant pulse of life and imagine the sheer abundance of food required to feed so many birds—and the chicks that will soon arrive. Whales, too, may appear. While sightings can never be guaranteed, some large migrators—such as blue whales—begin arriving in coastal waters by late spring. Others, like belugas, live here year-round and may be spotted threading through sea ice. Each encounter, however brief, reminds us of the interconnectedness of Arctic ecosystems. With seven full expedition days in Svalbard, we aim to explore a wide range of locations. The order of our journey w

### DAY 10: Disembark in Longyearbyen

The time to say goodbye has come. Your adventure ends as it began, in the frontierstyle settlement of Longyearbyen. From here, we'll transfer you to the airport for your return group charter flight to Helsinki, and hotel night. Both are included in your Charter Flight & Hotel Package.

### DAY 11: Depart Helsinki

After breakfast at your included hotel, make your way independently to the airport for your onward flight home, or spend more time exploring the Finnish capital as prearranged. \*Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.
