

# THE ARCTIC - FOUR ARCTIC ISLANDS | OCEAN ALBATROS

## INTRODUCTION

This trip offers the ideal opportunity to take in the beauty of the Arctic's late summer. In some of the planet's northernmost islands, you can anticipate stunning landscapes.

Leave Svalbard behind as you set course for Jan Mayen, a remote island dominated by Mt. Beerenburg, the world's northernmost volcano. Here, fulmars, kittiwakes, and gulls flock to the dramatic black volcanic cliffs. Ocean Albatros will continue toward East Greenland, stopping at the welcoming settlement of Ittoqqortoormiit and then venturing into the largest fjord system on Earth—Scoresbysund! Here, vibrant tundra, immense glaciers, and towering mountains rise from the icy waters, making this one of the most breathtaking destinations in the Arctic.

The journey concludes in Reykjavik, Iceland's lively capital, after crossing the Denmark Strait. This is the perfect gateway to explore Iceland, the land of fire and ice.

# THE ARCTIC - FOUR ARCTIC ISLANDS | OCEAN ALBATROS

## DAY 1: Arrive Longyearbyen & Embarkation

Arrive in Longyearbyen, Svalbard—the northernmost town on Earth. Despite its remote Arctic location, Longyearbyen offers warm Nordic hospitality. Upon arrival, you're greeted by crisp polar air, dramatic mountain views, and a polar bear warning sign reminding visitors of their wild new location. Your expedition ship Ocean Albatros awaits you in the harbor; toast your departure from civilization as you sail into the Arctic wilderness, on course for adventure!

## DAY 2: Kongsfjorden Area

During the Arctic “night,” we sail past Prins Karls Forland to the stunning Kongsfjord, framed by glaciers and the dramatic Three Crowns mountains. The first stop is Ny-Ålesund, Earth’s northernmost settlement, known for its scientific stations and historic role as a base for legendary polar explorers like Amundsen and Nansen. This remote outpost continues to support vital research amid its breathtaking surroundings.

## DAY 3: Expedition Northwest Spitzbergen

Northwest Svalbard, a National Park since 1973, preserves a rich history of early Arctic exploration and whaling. First visited by William Barents in 1596, the area became a hub for Dutch and English whalers, whose haunting remnants, such as the blubber ovens and graves of young sailors at Smeerenburg, remain visible. Now heavily protected, the region has been reclaimed by nature, hosting Arctic flowers, seabirds, walrus, and polar bears, making it once again a pristine wilderness and haven for wildlife.

## DAY 4: Expedition South Svalbard

On our final day on Svalbard, our expedition enters the greener, warmer fjords of Bellsund and Hornsund, nourished by Atlantic currents. These fertile valleys support reindeer, Arctic foxes, nesting seabirds, and drifting icebergs from nearby glaciers. Rich in wildlife and history, the area offers highlights like Alkhjornet’s bird cliffs and the historic sites of Calypsobyen and Bamsebu, making it one of Svalbard’s most diverse and captivating regions.

## THE ARCTIC - FOUR ARCTIC ISLANDS | OCEAN ALBATROS

### DAY 5: At Sea, en Route to Jan Mayen - Day 5 & 6

Departing Svalbard, Ocean Albatros heads southwest across the Greenland Sea towards Jan Mayen. Cold currents drifting down from the Arctic Ocean mix with the last gasp of the Gulf Stream, creating vast biological productivity. During sea days, guests can enjoy fascinating lectures, indulgent spa treatments, or simply relax and watch seabirds from the ship's hot tubs.

### DAY 7: Jan Mayen

The active volcanic island of Jan Mayen is on the MidAtlantic Ridge, the 'spine' of the Atlantic Ocean. This enigmatic and isolated island is the only active volcano in Norway, and the northernmost active volcano on Earth. Jan Mayen is inhabited by only around 18 people, a mixture of scientists and Norwegian troops. The volcanic origin is visible all over with cinder cones, lava flows, and the Fuji-esque peak of Beerenberg looming above, while creeping tundra plants and squabbling seabirds eek out a living in the rugged cliffs.

### DAY 8: At sea, en route to Scoresbysund

From Jan Mayen, Ocean Albatros will sail on towards the coast of the largest island on Earth. The sea ice in East Greenland is some of the most persistent in the Arctic; even in midsummer, the coast can be icebound, creating the perfect habitat for ice-loving species such as polar bears and belugas. If we are lucky, we will catch a glimpse of this vast icy wilderness during our passage towards Scoresbysund.

## DAY 9: Ittoqqortoormiit

The only settlement in this region, Ittoqqortoormiit is among the most remote communities on Earth. While the establishment of the town by Danish authorities in 1925 was challenging, residents continue a subsistence hunting lifestyle, essential when supply ships arrive only once or twice per year.

Ittoqqortoormiit is a town with a strong sense of community and traditional culture, hosting an excellent museum, a beautiful traditional church, and locals often welcome visitors wearing colourful traditional costumes. Ittoqqortoormiit is the perfect introduction to the culture and lifestyle of Greenland.

## DAY 10: Expedition Scoresbysund

Venturing deep into the maze of fjords and islands that comprises Scoresbysund, it is easy to see why this region is spoken of with awe by even experienced explorers! The exact locations we visit in Scoresbysund will be dictated by Mother Nature - this far north, all human activity is subject to wind, sea and ice conditions. Options include the Bjørne Islands, a labyrinth of skerries which trap vast icebergs in their rocky net, the sweeping basalt mountains of Cape Brewster, and the abandoned remains of European and Inuit settlements. Wherever we visit in the depths of Scoresbysund, adventure is guaranteed!

## DAY 11: Blosseville Coast

The Ocean Albatros will sail south along Greenland's Blosseville Coast, a rugged landscape shaped by volcanic activity around 50 million years ago. First surveyed by explorer Ejnar Mikkelsen, this area has long been navigated by the Inuit. If conditions allow, we may land in this now-uninhabited region of breathtaking beauty.
