

ECUADOR - 5 DAY NORTHEAST ITINERARY (C) | GALAXY STELLA

INTRODUCTION

This itinerary introduces you to some of the most wildlife-rich islands in the north-eastern Galapagos, where each stop offers its own character and rhythm. Your journey begins with the busy bird colonies of North Seymour, where frigatebirds and blue footed boobies dominate the landscape, before moving on to Santa Fe and South Plaza, two islands known for their contrasting terrain, sea lion colonies and distinctive land iguanas.

From there, you will travel to Genovesa, a remote island shaped by a volcanic caldera and home to extraordinary numbers of nesting seabirds. Walking the trails at Barranco and Darwin Bay gives you a close look at red footed boobies, owls, gulls and finches, while the surrounding waters offer excellent conditions for snorkelling. The final days bring you back to Santa Cruz for time in the highlands among giant tortoises, followed by a visit to Bachas Beach and a memorable cruise around Kicker Rock, one of the region's most dramatic marine sites.

Across five days, you will explore a route that blends birdlife, coastal scenery and calm bays ideal for time in the water. It is a well-rounded option if you want a journey that highlights the diversity of the north-eastern islands without feeling rushed, with a steady mix of guided walks, wildlife encounters and opportunities to enjoy the marine environment.

ECUADOR - 5 DAY NORTHEAST ITINERARY (C) | GALAXY STELLA

DAY 1: Arrive Galapagos Islands

Welcome to Galapagos! Upon arrival at Baltra Airport, your naturalist guide will greet you and assist with the transfer to Itabaca Channel. This initial journey offers your first connection with the archipelago as you take a short ferry ride to Santa Cruz Island. Along the way, observe Baltra's arid landscape and learn about its history as a former U.S. WWII airbase. This is just the beginning of the many fascinating stories awaiting you on your adventure. This afternoon visit North Seymour Island, a paradise for bird watchers, with large colonies of magnificent and great frigatebirds inflating their red throat pouches in an impressive courtship display. On the ground, blue-footed boobies perform their famous mating dance, while swallow-tailed gulls perch on cliffs overlooking the sea. Inland, land iguanas have thrived thanks to conservation efforts, while marine iguanas bask on the rocks near playful sea lions body surfing the waves.

DAY 2: Santa Fe & South Plaza

Santa Fe Island, nestled in one of the most stunning bays in the Galapagos, boasts towering prickly-pear cacti and ancient lava formations. Its white-sand beach and turquoise waters are home to a large sea lion colony basking under the sun. As you follow the trail, look for the endemic Santa Fe land iguana and, if lucky, a Galapagos hawk perched atop a cactus scanning for prey. Along the way, Darwin's finches, Galapagos doves, mockingbirds, and lava lizards are commonly seen, making this hike a true wildlife experience. In the afternoon, enjoy a visit to South Plazas island which is teeming with wildlife. Upon landing, you'll find land iguanas lounging beneath Opuntia cacti, waiting for fallen fruit. A large sea lion colony dominates the shore, where playful pups explore tide pools while massive bulls defend their territory. The trail leads to a dramatic cliffside, offering breathtaking ocean views where frigatebirds, blue-footed boobies, red-billed tropicbirds, and swallow-tailed gulls soar. A blanket of reddish succulents covering the island adds to its striking beauty.

DAY 3: Darwin Bay & Genovesa

Located in the southern part of Darwin Bay on Genovesa Island, El Barranco is a wildlife sanctuary. Its fragile lava cliffs provide shelter for storm petrels and a remarkable population of short-eared owls. Along the trail, red-footed and Nazca boobies nest on the volcanic rock. At the base of the cliffs, Galapagos fur seals rest in shaded areas, while seabirds soar above this breathtaking landscape, making El Barranco an unforgettable destination for nature lovers. This afternoon you will visit Darwin Bay on Genovesa Island, a breathtaking sight for birdwatchers. As you step onto the beach, you'll be amazed by the presence of hundreds of boobies, gulls, and frigatebirds soaring, nesting in bushes, or resting on the sand. Along the shore, sea lions and marine iguanas blend into the scenery, while inland you may spot night herons, swallow-tailed gulls, Darwin finches, Galapagos doves, and mockingbirds. This immersive experience brings you face-to-face with a thriving ecosystem.

DAY 4: Santa Cruz Highlands & Bachas Beach

Enjoy a scenic journey into the lush highlands of Santa Cruz. Walk through a reserve where you may spot giant tortoises—some weighing over 600 pounds—grazing peacefully. Observe endemic birds such as finches and flycatchers. If included in your itinerary, explore a lava tunnel, a fascinating remnant of the volcanic forces that shaped these islands. After, we will go to the beach known as Bachas, located north of Santa Cruz Island. Here we can snorkel or take a relaxing walk on the beach. For this, we will make a wet landing, in which we will jump from the panga to the shore of the beach. Again, we recommend disembarking barefoot and wearing light walking shoes for the rest of the journey. The saltwater lagoon behind the beach often has great blue herons and small birds. Both beaches are nesting areas for green sea turtles.

ECUADOR - 5 DAY NORTHEAST ITINERARY (C) | GALAXY STELLA

DAY 5: Kicker Rock & Lobos Island

León Dormido, also known as Kicker Rock, is one of the most iconic rock formations in the Galapagos. Located off the coast of San Cristóbal, this towering islet with sheer cliffs offers an unparalleled setting for diving and snorkeling. Dive into crystal-clear waters and swim alongside hammerhead sharks, sea turtles, and majestic manta rays. The marine life here is abundant, with schools of tropical fish and sea lions exploring the reefs. For those seeking adventure and a deep connection with the Galapagos' underwater world, this is an experience not to be missed. After this activity you will be transferred to the airport where you will board your departure flight from the Galapagos.
