INTRODUCTION

Discover Greenland's rugged western coastline on an expedition that combines dramatic scenery, fascinating local culture and rewarding wildlife encounters. Sail through glacier-carved fjords, visit colourful coastal settlements and witness the immense icebergs of Disko Bay and the UNESCO-listed Ilulissat Icefjord. Designed for curious travellers, this journey includes opportunities for shore landings, Zodiac cruises and optional kayaking, allowing you to engage more closely with Greenland's Arctic environment. From glacier fronts and volcanic landscapes to whale sightings and traditional communities, the focus is on immersive experiences both on and off the ship.

ITINERARY

DAY 1: Arrive Reykjavik

Upon arrival in Reykjavik, you will be met by a representative and transferred to the hotel included in your package. Spend the evening exploring the city while preparing for your adventure in the Arctic.

DAY 2: Kangerlussuaq

Once a WWII airbase at the head of Kangerlussuaq Fjord, Kangerlussuaq's history is told at the airport's museum, showcasing Inuit artefacts. This ice-filled glacial area and tundra is a haven for wildlife, including reindeer, arctic foxes, arctic hare, gyrfalcons and around 10,000 muskoxen.

DAY 3: Evigheds Glacier

The Evigheds Glacier, a majestic outflow from the Greenland Ice Sheet, carves through the dramatic Kangerlussuatsiaq Fjord, also known as Eternity Fjord. This 75-km-long waterway is a haven for wildlife, with white-tailed eagles and black-legged kittiwakes soaring above. Calving icebergs showcase Greenland's raw beauty, but sadly like many glaciers, it is slowly retreating due to global warming's impact on this fragile Arctic ecosystem.

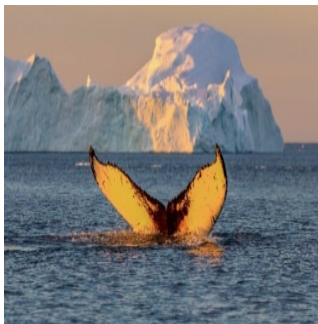

DAY 4: Qeqertarsuaq

Qeqertarsuaq is the largest town on Disko Island, Greenland's largest island, where colourful houses pop against dramatic red basalt mountains. Overlooked by striking Lyngemark Glacier, the area is shaped by its volcanic origin, unique terrain featuring dramatic basalt columns, rolling hills black sand beaches. Thanks to its relatively fertile landscape, it supports unique plant species, such as wild angelica, rarely found elsewhere in Greenland.

DAY 5: Uummannaq

The word Uummannaq means 'heart-shaped' in Greenlandic and refers to the twin-peaked granite mountain shaped like a heart, which covers nearly the whole northern half of the island. Folklore has it that a piece of your heart remains on the island forever, calling you back. Sheltered by glaciated mountains, this charming fjord region is referred to as the sunniest spot in Greenland and has been a refuge for Inuit migrations for over 4,500 years.

DAY 6: Eqip Sermia Glacier & Disko Bay

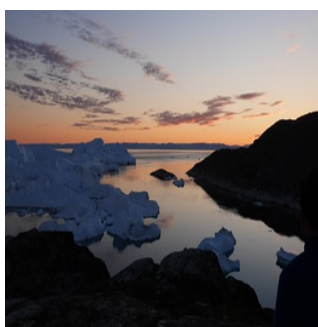

Eqi Glacier, or Eqip Sermia in Greenlandic, is one of Greenland's largest and most active calving glaciers, spanning nearly 4 km wide and towering over 200 m. Visitors can almost always witness calving, where pieces of ice break off the glacier's face, creating deafening bangs and giant splashes that send waves across the bay. The contrast between thunderous calving and the ensuing silence provides a glimpse of Greenland's dynamic icy landscape. One of Greenland's most iconic destinations, Disko Bay is a place of raw, staggering beauty — where some of the world's most productive glaciers calve colossal icebergs into steel-blue waters with thunderous force. The region is also remarkably rich in wildlife — humpback and fin whales are frequent visitors to these nutrient-rich waters, alongside seals, Arctic seabirds and the occasional polar bear on the surrounding shores. During our time in Disko Bay, guests will have the rare opportunity to kayak alongside the expedition team, paddling through a maze of ice-sculpted channels and getting closer to the glacial scenery than any larger vessel could allow. It's an intimate, unhurried way to experience one of the Arctic's most spectacular environments — at the pace the landscape deserves.

DAY 7: Ilulissat, Disko Bay

Sailing through the iceberg capital of the world to Disko Bay, the Ilulissat Icefjord is one of the cruise highlights. Given UNESCO World Heritage Site status, the Ilulissat Icefjord is a popular tourist destination, and thanks to the productive Sermeq Kujalleq glacier, thousands of gargantuan icebergs calve from the Greenland ice cap into the sea. The city of Ilulissat is home to many sled-dogs. Immerse yourself in Ilulissat's rich heritage with free access to the Icefjord Centre, Art Museum, and History Museum, where Knud Rasmussen's legacy unfolds. Enjoy a complimentary shuttle connecting all locations and a free drink at Icefjord Centre. Stroll the UNESCO-protected Sermermiut boardwalks, leading to stunning fjord viewpoints.

DAY 8: Sisimiut

The second largest town in Greenland, just above the Arctic Circle, Sisimiut remains remarkably ice free in winter and is known as an adventure sports hub all year round. Inhabited for more than 4,500 years by the Dorset, Thule and eventually the Inuit people, dog sledding remains a vital form of transportation. The area is home to humpback whales and Arctic foxes in their summer coat.

DAY 9: Disembarkation in Kangerlussuaq

Once a WWII airbase at the head of Kangerlussuaq Fjord, Kangerlussuaq's history is told at the airport's museum, showcasing Inuit artefacts. This ice-filled glacial area and tundra is a haven for wildlife, including reindeer, arctic foxes, arctic hare, gyrfalcons and around 10,000 muskoxen
